STEPPING STONES
day nurseries
Parent's / Carer's Welcome Pack

Dear Parent / Carer,

Below is a selection of Key Policies from our Little Stepping Stones Day Nurseries Policy & Procedures, which is available for you to read in its entirety at our Nursery.

Included Policies:

- Early Learning Opportunities Statement
- Safeguarding Children & Child Protection
- Online Safety
- Intimate Care & Practice
- Key Person
- Camera, Mobile Phone & Recording Device Use
- Mobile Phone & Social Networking
- Inclusion & Equality
- Special Educational Needs (SEN) & Disabilities
- Dealing with Discriminatory Behaviour
- Health & Safety - General
- Sickness & Illness
- Infection Control Policy
- Medication
- Promoting Positive Behaviour
- Biting
- Complaints & Compliments
- Alcohol & Substance Misuse
- Adverse Weather
- Immunisation
- Settling In
- Transitions
- Caring For Babies & Toddlers
- Sleep
- Nutrition & Meal Times
- Parents & Carers As Partners
- Late Collection & Non-Collection
- Arrivals & Departures

If you have any questions or would like any more information on any of the policies below, then please feel free to speak to our Nursery Manager.

53. Early Learning Opportunities Statement

At Little Stepping Stones Day Nurseries we recognise that children learn in different ways and at different rates and plan for this accordingly. Our aim is to support all children attending the nursery to attain their maximum potential within their individual capabilities.

We provide a positive play environment for every child, so they may develop good social skills and an appreciation of all aspects of this country's multi-cultural society. We plan learning experiences to ensure, as far as practical, there is equality of opportunity for all children and a celebration of diversity.

We maintain a personalised record of every child's development, showing their abilities, progress, interests and areas needing further staff or parental assistance.

We implement the Early Years Foundation Stage (EYFS) set by the Department for Education that sets standards to ensure all children learn and develop well. We support and enhance children's learning and development holistically through play-based activities. We review all aspects of learning and development and ensure a flexible approach is maintained, which responds quickly to children's learning and developmental needs. We develop tailor-made activities based on observations, which inform future planning and draw on children's needs and interests. This is promoted through a balance of adult-led and child-initiated opportunities both indoors and outdoors.

We acknowledge parents as primary educators and encourage parental involvement as outlined in our Parents and Carers as Partners policy. We build strong home links in order to enhance and extend children's learning both within the nursery environment and in the child's home.

We share information about the EYFS curriculum with parents and signpost them to further support via the following websites:

www.foundationyears.org.uk/

www.gov.uk/topic/schools-colleges-childrens-services/early-years

1. Safeguarding Children & Child Protection Policy

PART 1: Safeguarding Children & Child Protection Procedures

Introduction

Little Stepping Stones Day Nurseries is dedicated to the support, development and promotion of high-quality care and education for the benefit of our children, families and community. We are committed to safeguarding children and promoting their welfare.

All staff, students and volunteers have a responsibility for safeguarding children, being vigilant and identifying and reporting any safeguarding concerns, in line with this and supporting policies, including (but not limited to):

- Promoting Positive Behaviour Policy
- Online Safety Policy
- Inclusion And Equality Policy
- Late Collection & Non-Collection Of Children Policy
- Intimate Care Policy
- Lock Down Policy
- Lone Working Policy
- Looked After Children Policy
- Missing Child From Nursery Policy
- Missing Child From Outings Policies
- Mobile Phone & Electronic Device Use Policy
- Nappy Changing Policy
- Safe And Respectful Care Policy
- Safer Recruitment Of Staff Policy
- Social Networking Policy
- Special Educational Needs & Disabilities (SEND) Policy
- Staff Behaviour Policy
- Suitability Of Staff Policy
- Supervision Of Children
- Supervision Of Visitors Policy
- Volunteer Agreement
- Whistleblowing Policy
- Young Workers Policy
- Confidentiality Policy

We ensure all staff, students and volunteers have the necessary knowledge and skills to carry out their duties and have sufficient understanding of how this policy and procedures support them in promoting and safeguarding the welfare of children. This is achieved through recruitment and induction processes and by offering ongoing training and support to all staff, appropriate to their specific role.

This policy is reviewed annually to ensure it remains in line with statutory guidance. Its effectiveness is monitored through staff and stakeholder reviews, appraisals and feedback to ensure appropriate knowledge and awareness is in place.

It is the responsibility of every staff member, student and volunteer to report any breaches of this policy to the Designated Safeguarding Lead (DSL).

Policy Intention

The policy makes it clear that all staff, students and volunteers have a responsibility to safeguard children and young people and to protect them from harm. It aims to raise awareness of how to safeguard and promote the welfare of children and provides procedures should a child protection issue arise.

Safeguarding and promoting the welfare of children, in relation to this policy, is defined as:

- Protecting children from maltreatment
- Preventing the impairment of children's health or development
- Ensuring that children are growing up in circumstances consistent with the provision of safe and effective care
- Taking action to enable all children to have the best outcomes.

(Working together to safeguard children, 2018)

Child protection is an integral part of safeguarding children and promoting their overall welfare. In this policy, child protection shall mean:

- The activity that is undertaken to protect specific children who are suffering, or are at risk of suffering, significant harm.

To safeguard children and promote their welfare we will:

- Develop a safe culture where staff are confident to raise concerns about professional conduct
- Ensure all staff are able to identify the signs and indicators of abuse, including the softer signs of abuse, and know what action to take
- Share information with other agencies as appropriate.

We promote:

- Always listening to children
- Positive images of children
- Children developing independence and autonomy as appropriate for their age and stage of development
- Safe and secure environments for children
- Tolerance and acceptance of different beliefs, cultures and communities
- British values
- Providing intervention and help for children and families in need.

We have a duty to act quickly and responsibly in any instance that may come to our attention. If in any doubt about what constitutes a safeguarding concern, refer to the Designated Safeguarding Lead (DSL). If there is a concern, never do nothing (Laming, 2009), always do something, including sharing information with any relevant agencies. Safeguarding is everybody's responsibility.

The nursery aims to:

- Keep the child at the centre of all we do, providing sensitive interactions that develop and build children's well-being, confidence and resilience. We will support children to develop an awareness of how to keep themselves safe, healthy and develop positive relationships
- Be aware of the increased vulnerability of children with Special Educational Needs and Disabilities (SEND), isolated families and vulnerabilities in families, including the impact of toxic trio on children and Adverse Childhood Experiences (ACEs)
- Ensure that all staff feel confident and supported to act in the best interest of the child, maintaining professional curiosity around welfare of children, sharing information, and seeking help that a child may need at the earliest opportunity
- Ensure that all staff are familiar and updated regularly with child protection training and procedures and kept informed of changes to local and/or national procedures, including thorough annual safeguarding updates
- Make any child protection referrals in a timely way, sharing relevant information as necessary in line with procedures set out by the Wandsworth Safeguarding Children Partnership
- Ensure that information is shared only with those people who need to know in order to protect the child and act in their best interest
- Ensure that staff identify, minimise and manage risks while caring for children
- Take any appropriate action relating to allegations of serious harm or abuse against any person working with children including reporting such allegations to Ofsted and other relevant authorities
- Ensure parents are fully aware of our safeguarding and child protection policies and procedures when they register with the nursery and are kept informed of all updates when they occur
- Regularly review and update this policy with staff and parents where appropriate and make sure it complies with any legal requirements and any guidance or procedures issued by Wandsworth Safeguarding Children Partnership.

Designated Safeguarding Lead (DSL)

The DSL has overall responsibility for the Safeguarding children and child protection policy and procedures. It is their role to ensure that the policy and procedures are implemented to safeguard and promote the welfare of children. They are responsible for coordinating safeguarding and child protection training for staff across the organisation.

There is always at least one designated person on duty during the opening hours of the setting. The designated persons receive comprehensive training at least every two years and update their knowledge on an ongoing basis, but at least once a year. They in turn support the ongoing development and knowledge of the staff team with regular safeguarding updates.

Designated Safeguarding Lead	Nakiesha Morris
Deputy Designated Safeguarding Lead	Sazia Butt

In the unlikely event of the DSL or Deputy DSL absence and to ensure immediate action can be taken, contact the Local Safeguarding Partnership (LSP).

The Role Of The DSL

The role of the DSL is to:

- Monitor and update the Safeguarding children and child protection policy and procedures in line with new legislation and to ensure it is effective. This will be done by making sure that everyone understands the correct procedures during their individual annual review
- Ensure updates and new legislation are reflected in our services as soon as they are known
- Act as a source of support, advice and expertise for all staff, students, volunteers, children and parents who have child protection concerns
- Ensure detailed, accurate, secure written records of concerns and referrals
- Review all written safeguarding reports
- Assess information provided promptly, carefully and refer as appropriate to external agencies
- Provide signposting to other organisations
- Consult with statutory child protection agencies and regulatory bodies where required
- Make formal referrals to statutory child protection agencies or the police, as required.

In addition, the DSL is required to:

- Keep up-to-date with good practice and national requirements for safeguarding and child protection
- Provide information on safeguarding and child protection for the setting
- Raise awareness of any safeguarding and child protection training needs and implement where necessary
- Retain up-to-date knowledge of the role of the local safeguarding partnership arrangements and local child protection procedures.

The DSL does not investigate whether or not a child has been abused or investigate an allegation or disclosure. Investigations are for the appropriate authorities, usually the police and social services.

Sharing Low-Level Concerns

On occasion, inappropriate, problematic or concerning behaviour by staff or other adults is observed but does not meet the threshold for significant harm. This may be classed as a 'low-level' concern, although this does not mean that it is insignificant.

We define a low-level concern as:

- Any concern, no matter how small, that an adult working with children may have acted in a way that is inconsistent with our Staff behaviour policy, including inappropriate behaviour outside of work
- A concern that may be a sense of unease or a 'nagging doubt' and does not meet the harm threshold or is serious enough to refer to the LADO.

We encourage a culture of openness, trust and transparency, with clear values and expected behaviour, monitored and reinforced by all staff. All concerns or allegations, however small, will be shared and responded to. All concerns will be shared with the DSL, or other nominated person, as in our reporting procedures. We encourage concerns to be shared as soon as

reasonably practicable and preferably within 24 hours of becoming aware of it. However, it is never too late to share a low-level concern.

It is not expected that staff will be able to determine whether the behaviour in question is a concern, complaint or allegation before sharing the information. If the DSL is in any doubt as to whether the information meets the harm threshold, they will consult the LADO.

Occasionally a member of staff may find themselves in a situation which could be misinterpreted or appear compromising to others. If this occurs, staff are encouraged to self-report to the DSL. Equally, a member of staff may have behaved in a manner which, on reflection, falls below the standards set in our Staff behaviour policy. If this occurs, staff are encouraged to self-report to the DSL. We encourage staff to be confident to self-refer and believe it reflects awareness of our standards of conduct and behaviour.

When the DSL receives the information, they will need to determine whether the behaviour:

- Meets, or may meet, the harm threshold (and so contact the LADO)
- Meets the harm threshold when combined with previous low-level concerns (and so contact the LADO)
- Constitutes a 'low-level' concern
- Is appropriate and consistent with the law and our Staff behaviour policy.

The DSL will make appropriate records of all information shared, including:

- With the reporting person
- The subject matter of the concern
- Any relevant witnesses (where possible)
- Any external discussions such as with the LSP or LADO
- Their decision about the nature of the concern
- Their rationale for that decision
- Any action taken.

This constitutes a record of low-level concern. We retain all records of low-level concerns in a separate low-level concerns file, with separate concerns regarding a single individual kept as a chronology. These records are kept confidential and held securely, accessed only by those who have appropriate authority. Records will be retained at least until the individual leaves their employment.

If the low-level concern raises issues of misconduct, then appropriate actions following our Disciplinary procedures will be taken. Records will be kept in personnel files as well as in the low-level concerns file.

Monitoring Children's Attendance

As part of our requirements under the statutory framework we are required to monitor children's attendance patterns to ensure they are consistent and no cause for concern.

We ask parents to inform the nursery prior to their children taking holidays or days off, and all incidents of sickness absence should be reported to the nursery the same day so the nursery management are able to account for a child's absence.

If a child has not arrived at nursery within one hour of their normal start time, the parents will be contacted to ensure the child is safe and healthy. If the parents are not contactable then the emergency contacts numbers listed will be used to ensure all parties are safe. Staff will work their way down the emergency contact list until contact is established and we are made aware that all is well with the child and family.

If contact cannot be established then we would assess if a home visit is required to establish all parties are safe. If contact is still not established, we would assess if it would be appropriate to contact relevant authorities, including the police, in order for them to investigate further.

Where a child is part of a child protection plan, or during a referral process, any absences will immediately be reported to the Local Authority children's social care team to ensure the child remains safe and well.

Informing Parents

Parents are normally the first point of contact. If a suspicion of abuse is recorded, parents are informed at the same time as the report is made, except where the guidance of the Local Authority children's social care team, police or LADO does not allow this to happen.

This will usually be the case where the parent or family member is the likely abuser or where a child may be endangered by this disclosure. In these cases the investigating officers will inform parents.

Support To Families

The nursery takes every step in its power to build up trusting and supportive relationships among families, staff, students and volunteers within the nursery.

The nursery will continue to welcome a child and their family whilst enquiries are being made in relation to abuse in the home situation. Parents and families will be treated with respect in a non-judgmental manner whilst any external investigations are carried out in the best interest of the child.

Confidentiality

Confidentiality must not override the right of children to be protected from harm. However, every effort will be made to ensure confidentiality is maintained for all concerned if an allegation has been made and is being investigated.

If uncertain about whether sensitive information can be disclosed to a third party, contact the DSL or call the Information Commissioner's Office on 0303 123 1113. They will provide advice about the particulars relating to each individual case, including information which can and cannot be shared.

Staff must not make any comments either publicly or in private about the supposed or actual behaviour of a parent, child or member of staff.

Record Keeping & Data Protection

Confidential records kept on a child are shared with the child's parents or those who have parental responsibility for the child, only if appropriate and in line with guidance of the Local

Authority with the proviso that the care and safety of the child is paramount. We will do all in our power to support and work with the child's family.

The nursery keeps appropriate records to support the early identification of children and families which would benefit from early help. Factual records are maintained in a chronological order with parental discussions. Records are reviewed regularly by the DSL to look holistically at identifying children's needs.

Our Data protection and confidentiality policy will be applied with regards to any information received from an individual. Only persons involved in the investigation should handle this information although any investigating body will have access to all information stored in order to support an investigation.

PART 2: Definitions Of Abuse

Definition Of Significant Harm

The Children Act 1989 introduced the concept of significant harm as '*the threshold that justifies compulsory intervention in family life in the best interests of children*'. It gives LAs a duty to make enquires to decide whether they should take action to safeguard or promote the welfare of a child who is suffering, or likely to suffer, significant harm.

Whilst there are no absolute criteria to rely on when judging what constitutes significant harm, consideration should be given to:

- The severity of the ill-treatment, including the degree of harm
- The extent and frequency of abuse and/or neglect
- The impact this is likely to have, or is having, on the child involved.

This may be a single traumatic event, such as a violent assault, suffocation or poisoning, or it can be a combination of events (both acute and long-standing) that impairs the physical, intellectual, emotional, social or behavioural development of the child.

Definitions Of Abuse & Neglect

Abuse and neglect are forms of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. Children may be abused within a family, institution or community setting by those known to them or, more rarely, a stranger. Perpetrators of abuse can be an adult, or adults, another child or children.

(What to do if you're worried a child is being abused: Advice for practitioners, 2015 and Working together to safeguard children, 2018)

The signs and indicators listed below may not necessarily indicate that a child has been abused, but can help to indicate that something may be wrong, especially if a child shows a number of these symptoms, or any of them to a marked degree.

Indicators Of Child Abuse

- Failure to thrive and meet developmental milestones
- Fearful or withdrawn tendencies
- Unexplained injuries to a child or conflicting reports from parents or staff

- Repeated injuries
- Unaddressed illnesses or injuries
- Significant changes to behaviour patterns.

Softer signs of abuse as defined by National Institute for Health and Care Excellence (NICE) include:

Emotional states: Fearful, withdrawn, low self-esteem.

Behaviour: Aggressive, habitual body rocking.

Interpersonal behaviours:

- Indiscriminate contact or affection seeking
- Over-friendliness to strangers including healthcare professionals
- Excessive clinginess, persistently resorting to gaining attention
- Demonstrating excessively 'good' behaviour to prevent parent disapproval
- Failing to seek or accept appropriate comfort or affection from an appropriate person when significantly distressed
- Coercive controlling behaviour towards parents
- Lack of ability to understand and recognise emotions
- Very young children showing excessive comforting behaviours when witnessing parental or carer distress.

Child-On-Child Abuse

Child-on-child abuse is also known as peer-on-peer abuse; children are included as potential abusers in our policies. Child-on-child abuse may take the form of bullying, physically hurting another child, emotional abuse or sexual abuse. Reporting procedures in these instances remain the same although additional support from relevant agencies may be required to support both the victim and the perpetrator. Children who develop harmful behaviours are also likely to be victims of abuse or neglect.

If **child-on-child abuse** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Physical Abuse

A form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child.

If **physical abuse** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Fabricated Or Induced Illness (FI)

This abuse is when a parent fabricates the symptoms of, or deliberately induces, illness in a child. The parent may seek out unnecessary medical treatment or investigation. They may exaggerate a real illness and symptoms, or deliberately induce an illness through poisoning with medication or other substances, or they may interfere with medical treatments. This may

also be presented through false allegations of abuse or encouraging the child to appear disabled or ill to obtain unnecessary treatment or specialist support.

Fl is a form of **physical abuse** and any concerns must be reported in line with our safeguarding procedures.

Female Genital Mutilation (FGM)

FGM is a procedure where the female genital organs are injured or changed with no medical reason. The procedure may be carried out shortly after birth, during childhood or adolescence, just before marriage or during a woman's first pregnancy, according to the community.

It is frequently a very traumatic and violent act for the victim and can cause harm in many ways. The practice can cause severe pain and there may be immediate and/or long-term health consequences, including mental health problems, difficulties in childbirth, causing danger to the child and mother, and/or death (definition taken from the *Multi-agency statutory guidance on female genital mutilation*). Other consequences include shock, bleeding, infections (tetanus, HIV and hepatitis B and C) and organ damage.

FGM is a form of **physical abuse** and any concerns must be reported in line with our safeguarding procedures. In addition, there is a mandatory duty to report to police any case where an act of FGM appears to have been carried out on a girl under the age of 18.

Breast Ironing Or Breast Flattening

Breast ironing, also known as breast flattening, is a process where young girls' breasts are ironed, massaged and/or pounded down through the use of hard or heated objects in order for the breasts to disappear or to delay the development of the breasts entirely. It is believed that by carrying out this act, young girls will be protected from harassment, rape, abduction and early forced marriage. These actions can cause serious health issues such as abscesses, cysts, itching, tissue damage, infection, discharge of milk, dissymmetry of the breasts, severe fever.

Breast ironing/flattening is a form of **physical abuse** and any concerns must be reported in line with our safeguarding procedures.

Emotional Abuse

Working together to safeguard children (2018) defines emotional abuse as 'the persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development.' Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur separately.

Examples of emotional abuse include:

- Conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person
- Not giving a child opportunity to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate
- Age or developmentally inappropriate expectations being imposed, such as interactions that are beyond a child's developmental capability, as well as

overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction

- Serious bullying causing children frequently to feel frightened or in danger, or the exploitation or corruption of children
- A child seeing or hearing the ill-treatment of another.

A child may also experience emotional abuse through witnessing domestic abuse or alcohol and drug misuse by adults caring for them. In England, The Domestic Abuse Act (2021) recognises in law that children are victims of emotional abuse if they see, hear or otherwise experience the effects of domestic abuse.

Signs and indicators may include delay in physical, mental and/or emotional development, sudden speech disorders, overreaction to mistakes, extreme fear of any new situation, neurotic behaviour (rocking, hair twisting, self-mutilation), extremes of passivity or aggression, appearing to lack confidence or self-assurance.

If **emotional abuse** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Sexual Abuse

Sexual abuse involves forcing, or enticing, a child to take part in sexual activities. Sexual abuse does not necessarily involve a high level of violence and includes whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse.

Action must be taken if staff witness symptoms of sexual abuse including a child indicating sexual activity through words, play or drawing, having an excessive preoccupation with sexual matters or having an inappropriate knowledge of adult sexual behaviour, or language, for their developmental age. This may include acting out sexual activity on dolls or toys or in the role-play area with their peers, drawing pictures that are inappropriate for a child, talking about sexual activities or using sexual language or words.

Additional signs of emotional and physical symptoms are shown below.

Emotional signs	Physical signs
<ul style="list-style-type: none"> • Being overly affectionate or knowledgeable in a sexual way inappropriate to the child's age or stage of development • Personality changes, such as becoming insecure or clingy • Sudden loss of appetite or compulsive eating • Being isolated or withdrawn • Inability to concentrate 	<ul style="list-style-type: none"> • Bruises • Bleeding, discharge, pains or soreness in their genital or anal area • Sexually transmitted infections

- Lack of trust or fear of someone they know well, such as not wanting to be alone with a carer
- Becoming worried about clothing being removed.

If **sexual abuse** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Neglect

Working together to safeguard children (2018) defines neglect as 'the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development.'

Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve adults involved in the care of the child failing to:

- Provide adequate food, clothing and shelter (including exclusion from home or abandonment)
- Protect them from physical harm or danger
- Ensure adequate supervision (including the use of inadequate caregivers)
- Ensure access to appropriate medical care or treatment
- Respond to their basic emotional needs.

Signs of neglect include:

- a child persistently arriving at nursery unwashed or unkempt
- wearing clothes that are too small (especially shoes that may restrict the child's growth or hurt them)
- arriving at nursery in the same nappy they went home in
- a child having an illness or identified special educational need or disability that is not being addressed.
- A child may be persistently hungry if a caregiver is withholding, or not providing enough food.
- A child who is not receiving the attention they need at home may crave it from other adults, such as at nursery or school.

If **neglect** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Domestic Abuse

The definition of domestic abuse from the Domestic Abuse Act, 2021 is:

Behaviour of a person (A) towards another person (B) is 'domestic abuse' if:

- A and B are each aged 16 or over and are personally connected to each other
- The behaviour is abusive.

Behaviour is 'abusive' if it consists of any of the following:

- Physical or sexual abuse
- Violent or threatening behaviour

- *Controlling or coercive behaviour*
 - *Economic abuse (any behaviour that has a substantial adverse effect on B's ability to acquire, use or maintain money or other property and/or obtain goods or services)*
 - *Psychological, emotional or other abuse.*
- It does not matter whether the behaviour consists of a single incident or a course of conduct.*

Domestic abuse can happen to anyone regardless of gender, age, social background, religion, sexuality or ethnicity and domestic abuse can happen at any stage in a relationship.

Signs and symptoms of domestic abuse include:

- Changes in behaviour (for example, becoming very quiet, anxious, frightened, tearful, aggressive, distracted, depressed etc.)
- Visible bruising or single, or repeated, injury with unlikely explanations
- Change in the manner of dress (for example, clothes to hide injuries that do not suit the weather)
- Stalking, including excessive phone calls or messages
- Partner or ex-partner exerting an unusual amount of control or demands over work schedule
- Frequent lateness or absence from work.

All children can witness and be adversely affected by domestic abuse in the context of their home life. Exposure to domestic abuse and/or violence can have a serious, long lasting emotional and psychological impact on children.

Where incidents of domestic abuse are shared by our own staff, students or volunteers we will respect confidentiality at all times and not share information without their permission. However, we will share this information, without permission, in cases of child protection or where we believe there is an immediate risk of serious harm to the person involved.

If **domestic abuse** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Extremism And Radicalisation

Under the Counter-Terrorism and Security Act 2015, there is a duty to safeguard vulnerable and at risk children by preventing them from being drawn into terrorism. This is known as the Prevent Duty.

Children can be exposed to different views and receive information from various sources and some of these views may be considered radical or extreme. Radicalisation is the way a person comes to support or be involved in extremism and terrorism; usually it's a gradual process so those who are affected may not realise what's happening. Radicalisation is a form of harm. The process may involve:

- Being groomed online or in person
- Exploitation, including sexual exploitation
- Psychological manipulation
- Exposure to violent material and other inappropriate information
- The risk of physical harm or death through extremist acts.

For further information visit [The Prevent Duty](#) website.

If **radicalisation or extremism** is suspected, then any concerns must be reported in line with our safeguarding procedures. This includes reporting concerns to the police.

Online Safety

While the growth of internet and mobile device use brings many advantages, the use of technology has become a significant component of many safeguarding issues such as child sexual exploitation and radicalisation.

There are four main areas of risk associated with online safety:

- Content - being exposed to illegal, inappropriate or harmful material such as pornography, fake news, racist or radical and extremist views
- Contact - being subjected to harmful online interaction with other users such as commercial advertising or adults posing as children or young adults
- Conduct - personal online behaviour that increases the likelihood of, or causes, harm, such as making, sending and receiving explicit images and online bullying
- Commerce - risks such as online gambling, inappropriate advertising, phishing and or financial scams.

Report **online safety concerns** to the DSL and to the Child Exploitation and Online Protection Centre (CEOP): <https://www.ceop.police.uk/Safety-Centre/>
Inappropriate content received via email must be reported to the DSL and to the Internet Watch Foundation (IWF): <https://www.iwf.org.uk/>

PART 3: Reporting Procedures

Public Interest Disclosure (Whistleblowing)

Whistleblowing is the term used when a worker passes on information concerning wrongdoing. All safeguarding allegations, internal or external, current or historical, must be passed on the DSL. We will cooperate fully with the authorities involved and follow any guidance given.

We believe keeping children safe is the highest priority and if, for whatever reason, concerns cannot be reported to the DSL or deputy DSL, concerns can be reported anonymously to the NSPCC, the police or the LA social services safeguarding children team.

Allegation Against Our Staff

An allegation against our staff may relate to a person who has:

- Behaved in a way that has harmed a child, or may have harmed a child
- Possibly committed a criminal offence against or related to a child
- Behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children, or
- Behaved or may have behaved in a way that indicates they may not be suitable to work with children.

We will make every effort to maintain the confidentiality of all parties while an allegation or concern is being investigated. Dealing with an allegation can be a stressful experience and, to support the staff member, a named person (usually the DSL or Deputy DSL) to liaise with will

be offered. The timeframes for an investigation will follow the guidelines of other involved authorities.

We reserve the right to suspend a staff member until the investigation is concluded. Further action will be determined by the outcome of the investigation.

Founded allegations are considered gross misconduct, in accordance with our disciplinary procedures, and may result in the termination of employment. DBS will be informed to ensure their records are updated and Ofsted will be informed. We retain the right to dismiss any member of staff in connection with founded allegations following an inquiry.

All safeguarding records are kept until the person reaches normal retirement age or for 21 years and 3 months, if that is longer. This will ensure accurate information is available for references and future DBS checks and avoids unnecessary reinvestigation.

Unfounded allegations will result in all rights being reinstated. A return to work plan will be put in place for any member of staff returning to work after an allegation has been deemed unfounded. Individual support will be offered to meet the needs of the staff member and the nature of the incident such as more frequent supervisions, coaching and mentoring or external support services.

If the member of staff resigns during the investigation, we will inform DBS, Ofsted and the police, where appropriate.

Support For Staff During Safeguarding Incidents

The DSL will support staff throughout any of the processes listed above and will organise appropriate counselling should this be required.

Any member of staff who has concerns about the content of this policy and its procedures, should speak to the DSL as soon as possible. If any member of staff wishes to talk confidentially about any safeguarding concern or any other issue relating to child protection or personal circumstance, it is important to do this as soon as possible.

Reporting Procedure

We will always act on behalf of the child and will do everything possible to ensure the safety and welfare of any child and so will take all allegations of potential abuse seriously. All concerns reported to staff will be pursued, regardless of the nature of the concern and to whom the allegation relates.

All staff have a responsibility to report safeguarding and child protection concerns and suspicions of abuse. These concerns will be discussed with the DSL as soon as possible, as follows:

	Staff member role	DSL role
	on receiving information that causes a safeguarding concern	on receiving information that causes a safeguarding concern

<p>Step 1</p>	<ul style="list-style-type: none"> • Contact the DSL immediately. This must be a verbal conversation to ensure the concern is clearly understood and action is taken • If the DSL is unavailable, contact the Deputy DSL, LSP, NSPCC, social services or police until you are able to have a verbal conversation • For children who arrive at nursery with an existing injury, an 'incident outside nursery' form will be completed. If there are queries or concerns regarding the injury or information given, follow these procedures 	<ul style="list-style-type: none"> • If it is believed a child is in immediate danger, contact the police
<p>Step 2</p>	<ul style="list-style-type: none"> • Write an objective report including: <ul style="list-style-type: none"> – Child's name and address – Age and date of birth – Date, time and location of the observation or disclosure – Exact words spoken by the child (as close to word-for-word as possible) and non-verbal communication – Outline of the concern – Exact position and type of any injuries or marks seen – Exact observation of any incident or concern reported and the names of any other person present at the time – Any known confidentiality issues – Signature and date of person making the report and the DSL or other nominated individual receiving the report 	<ul style="list-style-type: none"> • Sign and date report received from staff member • Securely store the information according to the nursery procedures • If the safeguarding concern relates to a child, contact the Local Authority children's social care team, report concerns and seek advice immediately, or as soon as it is practical to do so • If the safeguarding concern relates to an allegation against an adult working or volunteering with children, contact the Local Authority Designated Officer (LADO) and request a confirmation email of the report, then report the concern to Ofsted • A full investigation into any allegation will be carried out by the appropriate professionals to determine how this will be handled • Note any actions requested by LADO / Ofsted and follow any instructions received
<p>Step 3</p>	<ul style="list-style-type: none"> • If you feel the report is not being taken seriously or are worried about an allegation getting back to the person in question, then it is your duty to inform the Local Authority children's social care team yourself directly • Follow all instructions from the Local Authority children's social 	<ul style="list-style-type: none"> • If appropriate, discuss the concerns or incidents with parent(s), unless it is believed that this would place the child at greater risk of harm • Record all discussions (remember parents will have access to these records on request in line with GDPR and data protection guidelines) • Follow all instructions from the Local Authority children's social

	care team and/or Ofsted, co-operating where required	care team and/or Ofsted, co-operating where required <ul style="list-style-type: none"> Record information and actions taken
Step 4		<ul style="list-style-type: none"> If the DSL is not the owner/manager and there is an allegation against a member of staff, then the owner/manager must be informed as they have a duty of care for their employees
Step 5		<ul style="list-style-type: none"> If the Local Authority children's social care team have not been in contact within the timeframe set out in Working Together to Safeguarding Children (2018), it must be followed up Never assume that action has been taken
Step 6	<ul style="list-style-type: none"> Safeguarding procedures will be reviewed to ensure the process has been applied in line with the policy 	

If a concern is raised anonymously and we have no contact details, we will treat the concern as valid and follow the procedures as above. If a malicious call is suspected, the procedures will still be followed: a child may be in danger. The Information Commissioners Office (ICO) will be contacted to ensure permitted data sharing.

PART 4: Recruitment, Selection, Induction & Training

Recruitment & Selection

Through the implementation of our Safer recruitment of staff policy, we endeavour to prevent unsuitable people from becoming members of staff. Procedures include relevant checks, such as requesting references, establishing the identity of applicant and conducting criminal records disclosures. Where required, staff and stakeholders have enhanced DBS checks. Clear person specification criteria and processes during the recruitment and selection process enable us to determine a candidate's suitability for the role.

We have specific responsibilities, as outlined in this policy, for any staff, apprentices, students and learners under the age of 18 whether living with their families, in state care, or living independently.

Induction & Probation For Staff

As part of our induction process, all new workers will receive basic training on this Safeguarding children and child protection policy so they have the necessary knowledge and skills to safeguard and promote the welfare of children.

Within the first week of induction, all staff will receive a copy of this policy. It is the line manager's responsibility to ensure that the new staff member understands it and is able to follow it. All safeguarding training must be completed by the end of the probationary period.

All staff are expected to keep their safeguarding knowledge and skills up-to-date and report any concerns they may have. We maintain records to ensure all staff have received the training they need.

Learners On Placements Or In Employment

We hold responsibility for ensuring that learners on placement or in employment are familiar with and sign up to this policy and agree to work within this framework. Learners will receive basic child protection training prior to starting their placement.

Learners and students under the age of 18 will be protected as children. Risk assessments will be completed to ensure their safety and well-being are protected and supported during their employment or training period. If situations arise during employment or placement which identifies those aged 18 or under are at risk from abuse or neglect, we will contact the appropriate bodies to ensure the individual is safeguarded.

Responding To & Recording Disclosures

Staff, volunteers or students may receive a safeguarding disclosure. See the guidance below for responding to and reporting disclosures of abuse.

Responding to a child's disclosure of abuse - what to do and say

- Stay calm and listen carefully
- Try not to look shocked and reassure them that this is not their fault
- Find an appropriate opportunity to say that the information will need to be shared and do not promise to keep the information shared a secret
- Allow the child to continue at their own pace
- Only ask questions for clarification and avoid asking any questions that may suggest a particular answer
- Reassure the child that they have done the right thing, let them know what you will do next and with whom the information will be shared
- Record the disclosure in writing using the child's own words as soon as possible, but not while the child is talking
- Includes the date and time, any names mentioned and to whom the information was given
- Sign and date the record, store it securely and refer the disclosure to the setting DSL and/or manager.

Recording a case of disclosure or suspicions of abuse in the community

If you observe a concern or receive a disclosure, make an objective record. Where possible include:

- Child's name and address
- Age of the child and date of birth
- Setting name and address
- Date and time of the observation or disclosure
- Details of the concern using factual information, including the exact words, if relevant
- Accurate details of the observation, including actions of the child or adult involved
- Accurate details of an injury or wound seen, including position and size

- The names of any other person present at the time
- Name of the person completing the report
- Name of the person to whom the concern was shared, with date and time.

Discuss the record with the setting DSL or manager and follow the procedures. We expect all members of staff and stakeholders to co-operate with relevant agencies to ensure the safety of children.

Legal Framework

We adhere to all current legislation, as below:

Children and Social Work Act 2017
 Criminal Justice and Court Services Act 2000
 Female Genital Mutilation Act 2003 (as amended by the Serious Crime Act 2015)
 Freedom of Information Act 2012
 Keeping Children Safe in Education 2022
 Safeguarding Vulnerable Groups Act 2006
 The Childcare Act 2006
 The Children Act 2004
 The Children Act (England and Wales) 1989
 The Counter-Terrorism and Security Act 2015
 The Data Protection Acts 1984, 1998 and 2018
 The Domestic Abuse Act 2021
 The Human Rights Act 1998
 The Police Act 1997
 The Sexual Offences Act 2003
 Working together to safeguard children 2018

Relevant non-statutory guidance:

Child sexual exploitation, DfE 2017
 Information sharing, DfE 2015
 What to do if you're worried a child is being abused, DfE 2015

2. Online Safety Policy

Little Stepping Stones Day Nurseries is aware of the growth of the internet and the advantages this can bring. However, it is also aware of the dangers it can pose and we strive to support children, staff and families to use the internet safely.

We refer to 'Safeguarding children and protecting professionals in early years settings: online safety considerations' to support this policy.

The Designated Safeguarding Lead is ultimately responsible for online safety concerns. All concerns need to be raised as soon as possible to **Nakeisha Morris**.

The use of technology has become a significant component of many safeguarding issues such as child sexual exploitation, radicalisation and sexual predation with technology often providing the platform that facilitates harm.

The breadth of issues included within online safety is considerable, but can be categorised into three areas of risk:

- Content: being exposed to illegal, inappropriate or harmful material; for example, pornography, fake news, racist or radical and extremist views
- Contact: being subjected to harmful online interaction with other users; for example commercial advertising as well as adults posing as children or young adults, and
- Conduct: personal online behaviour that increases the likelihood of, or causes, harm; for example making, sending and receiving explicit images, or online bullying.

Within the nursery we aim to keep children, staff and parents safe online. Our safety measures include:

- Ensuring we have appropriate antivirus and anti-spyware software on all devices and update them regularly
- Ensuring content blockers and filters are on all our devices, e.g. computers, laptops, tablets and any mobile devices
- Ensuring all devices are password protected and have screen locks. Practitioners are reminded to use complex strong passwords, keep them safe and secure, change them regularly and not to write them down
- Monitoring all internet usage across the setting
- Providing secure storage of all nursery devices at the end of each day
- Ensuring no social media or messaging apps are installed on nursery devices
- Reviewing all apps or games downloaded onto devices ensuring they are age and content appropriate
- Using only nursery devices to record and /or photograph children in the setting
- Never emailing personal or financial information
- Reporting emails with inappropriate content to the internet watch foundation (IWF www.iwf.org.uk)
- Teaching children how to stay safe online and report any concerns they have
- Ensuring children are supervised when using internet connected devices
- Not permitting staff or visitors private access to the nursery Wi-Fi
- Talking to children about 'stranger danger' and deciding who is a stranger and who is not; comparing people in real life situations to online 'friends'
- When using online video chat, such as Zoom, Teams, Skype, FaceTime etc. (where applicable) discussing with the children what they would do if someone they did not know tried to contact them
- Providing training for staff, at least annually, in online safety and understanding how to keep children safe online. We encourage staff and families to complete a free online safety briefing, which can be found at <https://moodle.ndna.org.uk/>

- Staff modelling safe practice when using technology with children and ensuring all staff abide by an acceptable use policy such as instructing staff to use the nursery IT equipment for matters relating to the children and their education and care only. No personal use will be tolerated.
- Monitoring children's screen time to ensure they remain safe online and have access to material that promotes their development. We ensure that their screen time is within an acceptable level and is integrated within their programme of learning
- Making sure the physical safety of users is considered, including the posture of staff and children when using devices
- Being aware of the need to manage our digital reputation, including the appropriateness of information and content that is posted online, both professionally and personally. This is continually monitored by the setting's management
- Staff must not friend or communicate with parents on personal devices or social media accounts
- Ensuring all electronic communications between staff and parents is professional and takes place via the official nursery communication channels, e.g. the setting's email addresses and telephone numbers. This is to protect staff, children and parents
- Signposting parents to appropriate sources of support regarding online safety at home

If any concerns arise relating to online safety, then we will follow our Safeguarding children and child protection policy and report all online safety concerns to the DSL.

The DSL will make sure that:

- All staff know how to report a problem and when to escalate a concern, including the process for external referral
- All concerns are logged, assessed and actioned in accordance with the nursery's safeguarding procedures
- Parents are supported to develop their knowledge of online safety issues concerning their children.
- Parents are offered support to help them talk about online safety with their children using appropriate resources
- Parents are signposted to appropriate sources of support regarding online safety at home and are fully supported to understand how to report an online safety concern
- Staff have access to information and guidance for supporting online safety, both personally and professionally
- Under no circumstances should any member of staff, either at work or in any other place, make, deliberately download, possess, or distribute material they know to be illegal, for example child sexual abuse material.

Cyber Security

This policy should be read in conjunction with the Data protection and confidentiality policy, and GDPR privacy notice.

Good cyber security means protecting the personal or sensitive information we hold on children and their families in line with the Data Protection Act. We are aware that cyber criminals will target any type of business including childcare and ensure all staff are aware of the value of the information we hold in terms of criminal activity e.g. scam emails. All staff are reminded to follow all the procedures above including backing up sensitive data, using strong passwords and protecting devices to ensure we are cyber secure.

To prevent any attempts of a data breach (which is when information held by a business is stolen or accessed without authorisation) that could cause temporary shutdown of our setting and reputational damage with the families we engage with, we inform staff not to open any suspicious messages such as official-sounding messages about 'resetting passwords', 'receiving compensation', 'scanning devices' or 'missed deliveries'.

Staff are asked to report these to the manager as soon as possible and these will be reported through the NCSC Suspicious email reporting service at report@phishing.gov.uk.

3. Intimate Care & Practice Policy

Intimate Care

At Little Stepping Stones Day Nurseries we believe that all children need contact with familiar, consistent carers to ensure they can grow and develop socially and emotionally. At times children need to be cuddled, encouraged, held and offered physical reassurance.

Intimate care routines are essential throughout the day to meet children's basic needs. This may include nappy changing, supporting children with toileting, changing clothes, and giving first aid treatment and specialist medical support, where required.

In order to maintain the child's privacy, we will carry out the majority of these actions on a one-to-one basis, wherever possible, by the child's key person (all staff are first aid qualified).

We wish to ensure the safety and welfare of children during intimate care routines and safeguard them against any potential harm as well as ensuring the staff member involved is fully supported and able to perform their duties safely and confidently. We aim to support all parties through the following actions:

- Promoting consistent and caring relationships through the key person system in the nursery and ensuring all parents understand how this works
- Ensuring all staff undertaking intimate care routines have suitable enhanced DBS checks
- Training all staff in the appropriate methods for intimate care routines and arranging specialist training where required, i.e. first aid training, specialist medical support
- Conducting thorough inductions for all new staff to ensure they are fully aware of all nursery procedures relating to intimate care routines
- Following up procedures through supervision meetings and appraisals to identify any areas for development or further training
- Working closely with parents on all aspects of the child's care and education as laid out in the "Parent & Carers As Partners" policy. This is essential for intimate care routines, which require specialist training or support. If a child requires specific support the nursery will arrange a meeting with the parent to discover all the relevant information relating to this to enable the staff to care for the child fully and meet their individual needs
- Ensuring all staff have an up-to-date understanding of safeguarding/child protection and how to protect children from harm. This will include identifying signs and symptoms of abuse and how to raise these concerns as set out in the "Safeguarding Children/Child Protection" policy
- Operating a whistleblowing policy to help staff raise any concerns about their peers or managers; and helping staff develop confidence in raising worries as they arise in order to safeguard the children in the nursery
- Conducting working practice observations on all aspects of nursery operations to ensure that procedures are working in practice and all children are supported fully by the staff. This includes intimate care routines
- Conducting regular risk assessments on all aspects of the nursery operation including intimate care and reviewing the safeguards in place. The nursery has assessed all the risks relating to intimate care routines and has placed appropriate safeguards in place to ensure the safety of all involved.

Safe Care & Practice

Working with young children to ensure they feel safe, secure and happy involves nursery staff being responsive to their needs, whilst maintaining professional. This includes giving children cuddles and changing children's nappy's or clothes.

To promote good practice and to minimise the risk of allegations the nursery has the following guidelines:

- Although we recognise it is appropriate to cuddle children, we give cuddles only when sought by children needing comfort to support their emotional development. Staff are advised to do this in view of other children and practitioners, whenever possible. We recognise that there may be occasions where it is appropriate for this to happen away from others, such as when a child is ill. In these circumstances, staff are advised to leave the door open. It is the duty of all staff and the manager to ensure that children are appropriately comforted and to monitor practice
- When changing children's nappies or soiled/wet clothing, we leave the doors open, where appropriate.
- We discourage inappropriate behaviour such as over tickling, over boisterous play or inappropriate questions such as asking children to tell them they love them and we advise staff to report any such observed practice
- Staff are respectful of each other and the children and families in the nursery and do not use inappropriate language or behaviour, including during breaks
- All staff are aware of the whistleblowing procedures and the manager carries out random checks throughout the day to ensure safe practices.

If a parent or member of staff has concerns or questions about safe care and practice procedures or behaviour they consider as inappropriate, including between staff members, they are urged to see the manager at the earliest opportunity. Management will challenge inappropriate behaviour in line with the supervision/ disciplinary or whistleblowing procedures. If the concern relates to the manager and/or nursery owner then parents should contact Ofsted (0300 123 1231) or the Wandsworth Safeguarding Children Board (020 8871 7401).

Management will challenge inappropriate behaviour in line with the supervision/ disciplinary or whistleblowing procedures. If a parent or member of staff has concerns or questions about safe care and practice procedures they are urged to see the manager at the earliest opportunity.

4. Key Person Policy

The key person ensures that within the day-to-day demands of the setting, each child for whom they have special responsibility feels individual, cherished and thought about by someone in particular while they are away from home.

Practitioners Responsibilities

Relationships with Key Children

- The key person provides a secure attachment for their key children in nursery.
- They help their key children settle in and become familiar with the setting.
- The key person meets the needs of their key children responding sensitively to their ^[11]_[SEP]feelings, ideas and behaviour.
- The key person provides a 'secure base' for the children by being there to support them and ^[11]_[SEP]allowing them to explore at their own pace.
- They are primarily responsible for their key child's care routines.

Relationships with Parents / Carers

- Key persons should develop a good relationship with parents/carers, ensuring that the child is cared for appropriately at nursery and accommodating their individual needs within the daily routine.
- The key person needs to develop a two way flow of information between themselves and the parent/carer to help them become aware of any significant aspects of family life that maybe important to the child.
- The key person has responsibility for sharing their key children's development profiles with parents and other professionals as required, in cases of children with additional needs or identified children in need they will be called upon to attend reviews and core group meetings with the support of a senior manager.

Records

- The key person is responsible for observational records of their key children, using these to inform next steps, individualised planning and completing development profiles for each of their key children.
- Where another member of staff who is not their key person supports a child e.g. SEN support record keeping then becomes a joint responsibility. ^[11]_[SEP]

Welfare & Safeguarding

- Key persons are responsible for the welfare of the children in their care monitoring patterns of absence, injury and development referring them on where necessary.

Transition

- The key person plays an integral role in the transition, aiding this by introducing the children and their parents/carers to their new key person and helping them to become familiar with their new environment.
- It is the responsibility of the key person to pass on records during transition and to ensure that these records are all up to date.
- In the case of a staff member's absence it is the responsibility of a secondary key person to cover the role of the primary key person.

Managers Responsibilities

- There should be a secondary / buddy key person for each child who takes on responsibility in the occurrence of staff holidays or prolonged absence.
- Managers must provide opportunities for staff to give regular feedback and to support staff in their role as key person, ensuring that all developmental needs are met.

6. Camera, Mobile Phone & Recording Device Use Policy

At Little Stepping Stones Day Nurseries we recognise that photographs and video recordings play a part in the life of the nursery. We ensure that any photographs or recordings (including CCTV) taken of children in our nursery are only done with prior written permission from each child's parent. We obtain this when each child is registered and we update it on a regular basis to ensure that this permission still stands.

We ask for individual permissions for photographs and video recordings for a range of purposes including: use in the child's learning journey; for display purposes; for promotion materials including our nursery website, brochure and the local press; and for security in relation to CCTV. We ensure that parents understand that where their child is also on another child's photograph, but not as the primary person, that may be used in another child's learning journey.

If a parent is not happy about one or more of these uses we will respect their wishes and find alternative ways of recording their child's play or learning.

Staff are not permitted to take photographs or recordings of a child on their own cameras, mobiles or other devices and may only use those provided by the nursery. The nursery manager will monitor all photographs and recordings to ensure that the parent's wishes are met.

Parents are not permitted to use any recording device or camera (including those on mobile phones) on the nursery premises.

During special events, e.g. Christmas or leaving parties, staff may produce group photographs to distribute to parents on request. In this case we will gain individual permission for each child before the event. This will ensure all photographs taken are in line with parental choice. We ask that photos of events such as Christmas parties are not posted on any social media websites/areas without permission from parents of all the children included in the picture.

7. Mobile Phone & Social Networking Policy

At Little Stepping Stones Day Nurseries we promote the safety and welfare of all children in our care. We believe our staff should be completely attentive during their hours of working to ensure all children in the nursery receive good quality care and education. To ensure the safety and well-being of children we do not allow staff to use personal mobile phones during working hours. We use mobile phones supplied by the nursery to provide a means of contact in certain circumstances, such as outings.

We require our staff to be responsible and professional in their use of social networking sites in relation to any connection to the nursery, nursery staff, parents or children. We ask parents and visitors to respect and adhere to our policy.

Staff must adhere to the following:

- Mobile phones are either turned off or on silent and not accessed during your working hours
- Mobile phones can only be used on a designated break and then this must be away from the children
- Mobile phones should be handed into the nursery office to be locked in the filing cabinet before commencing work and must remain there at all times during the hours of your working day
- During outings, staff will use mobile phones belonging to the nursery wherever possible. Photographs must not be taken of the children on any phones, either personal or nursery owned
- Staff must not post anything on to social networking sites such as Facebook that could be construed to have any impact on the nursery's reputation or relate to the nursery or any children attending the nursery in any way
- Staff must not post anything on to social networking sites that could offend any other member of staff or parent using the nursery
- If staff choose to allow parents to view their page on social networking sites this relationship must remain professional at all times
- If any of the above points are not followed then the member of staff involved will face disciplinary action, which could result in dismissal.

Parents' & Visitors' Use Of Mobile Phones & Social Networking

Whilst we recognise that there may be emergency situations which necessitate the use of a mobile telephone, in order to ensure the safety and welfare of children in our care and share information about the child's day, parents and visitors are kindly asked to refrain from using their mobile telephones whilst in the nursery or when collecting or dropping off their children.

We promote the safety and welfare of all staff and children and therefore ask parents and visitors not to post publically or privately information about any child on social media sites such as Facebook and Twitter. We ask all parents and visitors to follow this policy to ensure that information about children, images and information do not fall into the wrong hands.

Parents/visitors are invited to share any concerns regarding inappropriate use of social media through the official procedures (please refer to the "Partnership With Parents Policy", "Complaints Procedures" and "Grievance Policy").

8. Inclusion & Equality Policy

Statement Of Intent

At Little Stepping Stones Day Nurseries we take great care to treat each individual as a person in their own right, with equal rights and responsibilities to any other individual, whether they are an adult or a child. We are committed to providing equality of opportunity and anti-discriminatory practice for all children and families according to their individual needs. Discrimination on the grounds of gender, age, race, religion or belief, marriage or civil partnership, disability, sexual orientation, gender reassignment, pregnancy or maternity, ethnic or national origin, or political belief has no place within our nursery.

A commitment to implementing our inclusion and equality policy will form part of each employee's job description. Should anyone believe that this policy is not being upheld, it is their duty to report the matter to the attention of the nursery manager or owner at the earliest opportunity. Appropriate steps will then be taken to investigate the matter and if such concerns are well-founded, disciplinary action will be invoked under the nursery's Disciplinary Policy.

The Legal Framework For This Policy Is Based On:

- Equality Act 2010
- Children Act 2004
- Care Standards Act 2002
- Childcare Act 2006
- Special Educational Needs and Disability Act 2001
- Children and Families Act 2014.

The Nursery & Staff Are Committed To:

- Recruiting, selecting, training and promoting individuals on the basis of occupational skills requirements. In this respect, the nursery will ensure that no job applicant or employee will receive less favourable treatment because of age, sex, gender reassignment, disability, marriage or civil partnership, race, religion or belief, sexual orientation, pregnancy or maternity which cannot be justified as being necessary for the safe and effective performance of their work or training
- Providing a childcare place, wherever possible, for children who may have learning difficulties and/or disabilities or are deemed disadvantaged according to their individual circumstances, and the nursery's ability to provide the necessary standard of care
- Making reasonable adjustments for children with special educational needs and disabilities
- Striving to promote equal access to services and projects by taking practical steps (wherever possible and reasonable), such as ensuring access to people with additional needs and by producing materials in relevant languages and media for all children and their families
- Providing a secure environment in which all our children can flourish and all contributions are valued
- Including and valuing the contribution of all families to our understanding of equality, inclusion and diversity
- Providing positive non-stereotypical information
- Continually improving our knowledge and understanding of issues of equality, inclusion and diversity
- Regularly reviewing, monitoring and evaluating the effectiveness of inclusive practices to ensure they promote and value diversity and difference and that the policy is effective and practices are non-discriminatory
- Making inclusion a thread, which runs through the entirety of the nursery, for example, by encouraging positive role models through the use of toys, imaginary play and activities, promoting non-stereotypical images and language and challenging all discriminatory behaviour (see dealing with "Discriminatory Behaviour Policy").

Admissions / Service Provision

The nursery is accessible to all children and families in the local community and further afield through a comprehensive and inclusive admissions policy.

The nursery will strive to ensure that all services and projects are accessible and relevant to all groups and individuals in the community within targeted age groups.

Recruitment

All members of the selection group will be committed to the inclusive practice set out in this policy and will have received appropriate training in this regard.

Application forms will be sent out along with a copy of the equal opportunities monitoring form. Application forms will not include questions that potentially discriminate on the grounds specified in the statement of intent.

At interview, no questions will be posed which potentially discriminate on the grounds specified in the statement of intent. All candidates will be asked the same questions and members of the selection group will not introduce nor use any personal knowledge of candidates acquired outside the selection process. Candidates will be given the opportunity to receive feedback on the reasons why they were not successful.

Staff

It is the policy of Little Stepping Stones Day Nurseries not to discriminate in the treatment of individuals. All staff are expected to co-operate with the implementation, monitoring and improvement of this and other policies. All staff are expected to challenge language, actions, behaviours and attitudes which are oppressive or discriminatory on the grounds specified in this policy and recognise and celebrate other cultures and traditions. All staff are expected to participate in equality and inclusion training.

Staff will follow the "Whistleblowing Policy" where applicable to report any discriminatory behaviours observed.

Training

The nursery recognises the importance of training as a key factor in the implementation of an effective inclusion and equality policy. All new staff receive induction training including specific reference to the inclusion and equality policy. The nursery will strive towards the provision of inclusion, equality and diversity training for all staff on an annual basis.

Early Learning Framework

Early learning opportunities offered in the nursery encourage children to develop positive attitudes to people who are different from them. It encourages children to empathise with others and to begin to develop the skills of critical thinking.

We Do This By:

- Making children feel valued and good about themselves
- Ensuring that all children have equal access to early learning and play opportunities
- Reflecting the widest possible range of communities in the choice of resources
- Avoiding stereotypical or derogatory images in the selection of materials
- Acknowledging and celebrating a wide range of religions, beliefs and festivals
- Creating an environment of mutual respect and empathy
- Helping children to understand that discriminatory behaviour and remarks are unacceptable

- Ensuring that all early learning opportunities offered are inclusive of children with learning difficulties and/or disabilities and children from disadvantaged backgrounds
- Ensuring that children whose first language is not English have full access to early learning opportunities and are supported in their learning
- Working in partnership with all families to ensure they understand the policy and challenge any discriminatory comments made
- Ensuring the medical, cultural and dietary needs of children are met
- Helping children to learn about a range of food and cultural approaches to meal times and to respect the differences among them.

Information & Meetings

Information about the nursery, its activities and their children's development will be given in a variety of ways according to individual needs (written, verbal and translated), to ensure that all parents can access the information they need.

Wherever possible, meetings will be arranged to give all families options to attend and contribute their ideas about the running of the nursery.

9. Special Educational Needs (SEN) & Disabilities Policy

The new Special Educational Needs and Disability Code of Practice was published in June 2014 for implementation in September 2014. A copy of the new SENDCP is available to read in the nursery office. Please speak to the nursery manager for access to it.

At Little Stepping Stones Day Nurseries we are committed to the inclusion of all children. All children have the right to be cared for and educated to achieve the best possible outcomes, to share opportunities and experiences and develop and learn alongside their peers. We provide a positive and welcoming environment where children are supported according to their individual needs.

We recognise that some children may have additional needs that may require particular help, intervention and support. These needs may be short-lived for a particular time in the child's life or may require longer-term or lifelong support. At all times we will work alongside each child's parents and any relevant professionals to share information, identify needs and help the child and their family access the support they need.

In accordance with our admissions policy, we are committed to providing a childcare place, wherever possible, for children who may have special educational needs (SEN) and/or disabilities according to their individual circumstances, and the nursery's ability to make any reasonable adjustments in order to provide the necessary standard of care. All children will be given a full settling in period when joining the nursery according to their individual needs.

Where we believe a child may have learning difficulties and/or a disability that has not previously been acknowledged, we will work closely with the child's parents and any relevant professionals to establish the child's needs and to secure any action that may be required. We recognise that children with disabilities may not have SEN but may need the nursery to make reasonable adjustments to enable them to make full use of the nursery's facilities.

Where we have emerging concerns about a child and/or where a child has identified additional needs or a disability, we will find out as much as possible about the needs of the child and any support the child or family may need to ensure the child makes the best progress in their learning and development. We do this by:

- Liaising with the child's parents
- Observing each child's development and monitoring such observations regularly
- Liaising with any other relevant professionals engaged with the child and their family
- Seeking any specialist help or support
- Researching relevant publications/sources of help
- Reading any reports that have been prepared
- Attending any assessment or review meetings with the local authority/professionals.

Legal Framework & Definitions

The relevant legislation underpinning this policy includes:

- Special Educational Needs and disability Code of Practice: 0 to 25 years
- The Children and Families Act 2014, Part 3
- The Equality Act 2010
- Special Educational Needs and Disability Regulations 2014
- Statutory Framework for the Early Years Foundation Stage (from September 2014)
- Working Together to Safeguard Children 2013

We use the definitions set out in the law to describe SEN and disabilities.

- A child has SEN if they have a **learning difficulty or disability**, which calls for **special educational provision** to be made for them.
- A **learning difficulty or disability** means that a child of compulsory school age has a significantly greater difficulty in learning than the majority of other children of the same age; and/or has a disability which prevents or hinders them from making use of the sort of facilities generally provided for others of the same age.
- For children aged two or more, **special educational provision** is educational provision that is additional to or different from that made generally for other children of the same age. For a child under two years of age, special educational provision means educational provision of any kind.
- A child under compulsory school age has SEN if he or she is likely to have a learning difficulty or disability when they reach compulsory school age or would do so if special educational provision was not made for them.
- A **disability** is defined in the Equality Act 2010 as 'a physical or mental impairment, which has a long-term and substantial adverse effect on their ability to carry out normal day-to-day activities'. 'Long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. This definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy, and cancer. Children with such conditions do not necessarily have SEN, but there is a significant overlap between disabled children and those with SEN. Where a disabled child requires special educational provision they are also be covered by the SEN definition.

Aims

The nursery has regard to the statutory guidance set out in the Special Educational Needs and Disability Code of Practice: 0 to 25 years (2014). We have clear arrangements in place to support children with SEN and disabilities. We aim to:

- Recognise each child's individual needs through gathering information from parents and others involved with the child on admission and through our procedures for observation and assessment
- Ensure all staff understand their responsibilities to children with SEN and disabilities and have regard to the guidance given in the Special Educational Needs and Disability Code of Practice 2014
- Plan, provide or help parents to obtain any additional help or support for any needs not being met by the universal service provided by the nursery
- Include all children and their families in our provision, making reasonable adjustments where needed
- Provide well-informed and suitably trained practitioners to help support parents and children with special educational needs and/or disabilities
- Identify any emerging concerns that might suggest a child has special educational needs and/or disabilities at the earliest opportunity and plan for those needs through a range of strategies
- Share any information received and assessments made by the nursery with parents and support parents in seeking any help they or the child may need

- Seek any additional help needed including requesting an Education, Health and Care (EHC) Needs Assessment where the nursery's own actions are not helping the child to make progress
- Work in partnership with parents and other agencies in order to meet the individual children's needs, including health services and the local authority, and seek advice, support and training where required
- Monitor and review our practice and provision and, if necessary, make adjustments and seek specialist equipment and services if needed
- Ensure that all children are treated as individuals/equals and are encouraged to take part in every aspect of the nursery day according to their individual needs and abilities
- Ensure that gifted and talented children who learn more quickly are also supported
- Encourage children to value and respect others
- Challenge inappropriate attitudes and practices
- Promote positive images and role models during play experiences of those with additional needs wherever possible
- Celebrate diversity in all aspects of play and learning.

Methods

We will:

- Develop and maintain a core team of staff who are experienced in the care of children with additional needs. Staff will be provided with specific training to help them make any special educational provision needed and meet the requirements of the Special Educational Needs and Disability Code of Practice 2014
- Identify a member of staff to be our Special Educational Needs Co-ordinator (SENCO) and share their name with parents (see below for an explanation of their role)
- Provide a statement showing how we provide for children with learning difficulties and/or disabilities and share this with staff, parents and other professionals
- Ensure that the provision for children with learning difficulties and/or disabilities is the responsibility of all members of staff in the nursery
- Ensure that our inclusive admissions practice includes equality of access and opportunity
- Ensure that our physical environment is, as far as possible, suitable for children and adults with disabilities
- Work closely with parents to create and maintain a positive partnership which supports their child(ren)
- Provide differentiated activities to meet all individual needs and abilities to give a broad and balanced early learning environment for all children including those with learning difficulties and/or disabilities

- Ensure that parents are consulted with and kept informed at all stages of the assessment, planning, provision and review of their child's care and education, including seeking any specialist advice
- Ensure that children's views are sought and listened to
- Use a graduated approach (see explanation below) to identifying, assessing and responding to children who have emerging difficulties, suggesting they may have special educational needs or a disability that requires a different approach
- When planning interventions and support, agree the outcomes and the expected impact on progress and a date for review
- Hold review meetings with parents at the agreed times and agree any changes or adjustments to support
- Seek any further advice or support needed including multi-agency approaches, Early Support and requesting an Education, Health and Care (EHC) Needs Assessment where the nursery's own actions are not helping the child make progress
- Liaise with other professionals involved with children with learning difficulties and/or disabilities and their families, including transfer arrangements to other settings and schools. We work closely with the next school or care setting and meet with them to discuss the child's needs to ensure information exchange and continuity of care
- Provide parents with information on sources of independent advice and support
- Keep records of the assessment, planning, provision and review for children with learning difficulties and/or disabilities
- Provide resources, in so far as we can (human and financial), to implement our SEN/disability policy
- Ensure the privacy of children with learning difficulties and/or disabilities when intimate care is being provided
- Provide in-service training for practitioners and volunteers
- Raise awareness of any specialism the setting has to offer, e.g. Makaton trained staff
- Ensure the effectiveness of our SEN/disability provision by collecting information from a range of sources e.g. assessment information, targeted plans and outcomes, staff and management meetings, parental and external agencies' views, inspections and complaints. This information is collated, evaluated and reviewed annually
- Provide a complaints procedure and make available to all parents in a format that meets their needs e.g. braille, audio, large print, additional languages
- Monitor and review our policy annually.

The Role Of The Special Education Needs Co-Ordinator (SENCO)

The role of the SENCO is to provide a lead for staff in relation to SEN and disabilities and to make sure procedures are followed, appropriate records kept and parents are involved. The child's practitioner (key person) will normally remain responsible for working with the child on a daily basis and for planning and delivering an individualised programme. The particular responsibilities of our SENCO are:

- Ensuring all practitioners in the setting understand their responsibilities to children with SEN and the setting's approach to identifying and meeting SEN
- Advising and supporting colleagues
- Ensuring parents are closely involved throughout and that their insights inform action taken by the setting
- Liaising with professionals or agencies beyond the setting.

Our nursery SENCOs are **Mithila Sivananthan & Sazaia Butt**

Graduated Approach

In line with requirements of the Special Educational Needs and Disability Code of Practice, we take a graduated approach to working with children with emerging concerns and their families. This approach includes:

- An analysis of the child's needs including whether we should seek more specialist help from health, social services or other agencies
- An agreement about the interventions and support needed and the expected impact on progress and a date for review
- Implementation of the interventions or programmes agreed, including assessing the child's response to the action taken
- A review of the effectiveness of the support and its impact on the child's progress by the key person, SENCO, the child's parent(s) and the views of the child, including any agreed changes to outcomes and support
- Revisiting this cycle of action in increasing detail and frequency including seeking further specialist help to secure good progress until the SENCO, key person, the child's parent(s) and any other professionals involved agree intervention is no longer needed or decide to request an Education, Health & Care Needs Assessment (see below).

Education, Health & Care (EHC) Needs Assessment And Plan

If the help given through the nursery's graduated approach is not sufficient to enable the child to make satisfactory progress, we may request, in consultation with the parents and any external agencies already involved, an assessment of the child's needs by the local authority. This is called an Education, Health and Care (EHC) assessment. The assessment will decide whether a child needs an EHC assessment plan. This plan sets out in detail the education, health and social care support that is to be provided to a child who has SEN or a disability. The local authority will consult with parents and let them know the outcome of the assessment.

Early Help Assessment

If we believe a child and their family would benefit from support from more than one agency, for example where a child may have difficulties linked to poor housing or difficult domestic circumstances, we may request or carry out an inter-agency assessment to get early help for the family. This early help assessment aims to ensure that early help services are co-ordinated and not delivered in a disjointed way.

In our nursery we use the Common Assessment Framework (CAF)

Early Support

Where children have disabilities we may seek additional help and resources through the Early Support Programme which co-ordinates health, education and social care support for the parents and carers of disabled children from birth to adulthood. There is more information on the Council for Disabled Children website: <http://councilfordisabledchildren.org.uk/earlysupport>

10. Dealing With Discriminatory Behaviour Policy

At Little Stepping Stones Day Nurseries we do not tolerate discriminatory behaviour and take action to tackle discrimination. We believe that parents have a right to know if discrimination occurs and what actions the nursery will take to tackle it. We follow our legal duties in relation to discrimination and record all incidents any perceived or actual relating to discrimination on any grounds and report these where relevant to children's parents and the registering authority.

Definition & Legal Framework

Types Of Discrimination

- **Direct discrimination** occurs when someone is treated less favourably than another person because of a protected characteristic
- **Discrimination by association** occurs when there is a direct discrimination against a person because they associate with a person who has a protected characteristic
- **Discrimination by perception** occurs when there is a direct discrimination against a person because they are perceived to have a protected characteristic
- **Indirect discrimination** can occur where a provision or criterion is in place which applies to everyone in the organisation but particularly disadvantages people who share a protected characteristic
- **Harassment** is defined as 'unwanted conduct related to a relevant protected characteristic, which has the purpose or effect of violating an individual's dignity or creating an intimidating, hostile, degrading, humiliating or offensive environment for that individual'
- **Victimisation** occurs when an employee is treated badly or put to detriment because they have made or supported a complaint or raised grievance under the Equality Act 2010 or have been suspected of doing so.

Protected Characteristics

The nine protected characteristics under the Equality Act 2010 are:

- Age
- Disability
- Gender Reassignment
- Race
- Religion Or Belief
- Sex
- Sexual Orientation
- Marriage & Civil Partnership
- Pregnancy & Maternity

Incidents may involve a small or large number of persons, they may vary in their degree of offence and may not even recognise the incident has discriminatory implications; or at the other extreme their behaviour may be quite deliberate and blatant.

Examples of discriminatory behaviour are:

- Physical assault against a person or group of people
- Derogatory name calling, insults and discriminatory jokes
- Graffiti and other written insults
- Provocative behaviour such as wearing badges and insignia and the distribution of discriminatory literature
- Threats against a person or group of people because the nine protected characteristics listed above
- Discriminatory comments including ridicule made in the course of discussions
- Patronising words or actions.

Our Procedures

We tackle discrimination by:

- Expecting all staff in the nursery to be aware of and alert to any discriminatory behaviour or bullying taking place
- Expecting all staff to intervene firmly and quickly to prevent any discriminatory behaviour or bullying, this may include behaviour from parents and other staff members.
- Expecting all staff to treat any allegation seriously and report it to the nursery manager. Investigating and recording each incident in detail as accurately as possible and making this record available for inspection by staff, inspectors and parents where appropriate, on request. The nursery manager is responsible for ensuring that incidents are handled appropriately and sensitively and entered in the record book. Any pattern of behaviour should be indicated. Perpetrator/victim's initials may be used in the record book as information on individuals is confidential to the nursery
- Informing the, the parents of the child(ren) who are perpetrators and/or victims should be informed of the incident and of the outcome, where an allegation is substantiated following an investigation
- Excluding or dismissing any individuals who display continued discriminatory behaviour or bullying but such steps will only be taken when other strategies have failed to modify behaviour. This includes any employees where any substantiated allegation after investigation will incur our disciplinary procedures (please see the policy on disciplinary procedures).

We record any incidents of discriminatory behaviour or bullying to ensure that:

- Strategies are developed to prevent future incidents
- Patterns of behaviour are identified
- Persistent offenders are identified
- Effectiveness of nursery policies are monitored
- A secure information base is provided to enable the nursery to respond to any discriminatory behaviour or bullying.

Nursery Staff

We expect all staff to be alert and seek to overcome any ignorant or offensive behaviour based on fear or dislike of distinctions that children, staff or parents may express in nursery.

We aim to create an atmosphere where the victims of any form of discrimination have confidence to report such behaviour, and that subsequently they feel positively supported by the staff and management of the nursery.

It is incumbent upon all members of staff to ensure that they do not express any views or comments that are discriminatory; or appear to endorse such views by failing to counter behaviour, which is prejudicial in a direct manner. We expect all staff to use a sensitive and informed approach to counter any harassment perpetrated out of ignorance.

12. Health & Safety - General Policy

At Little Stepping Stones Day Nurseries we provide and maintain safe and healthy working conditions, equipment and systems of work for all our employees and a safe early learning environment in which children learn and are cared for. To develop and promote a strong health and safety culture within the nursery for the benefit of all staff, children and parents we provide information, training and supervision. We also accept our responsibility for the health and safety of other people who may be affected by our activities.

The allocation of duties for safety matters and the particular arrangements which we will make to implement our health and safety procedures are set out within this policy and we make sufficient resources available to provide a safe environment.

Legal Framework

We follow all relevant legislation and associated guidance relating to health and safety within the nursery including:

- The requirements of the Statutory Framework for the Early Years Foundation Stage (EYFS) 2014
- The regulations of the Health & Safety at Work Act 1974 and any other relevant legislation such as Control Of Substances Hazardous to Health Regulation (COSHH)
- Any guidance provided by Public Health England, the local health protection unit, the local authority environmental health department, fire authority or the Health and Safety Executive

Aims & Objectives

The aim of this policy statement is to ensure that all reasonably practical steps are taken to ensure the health, safety and welfare of all persons using the premises.

To achieve this we will actively work towards the following objectives:

- Establish and maintain a safe and healthy environment throughout the nursery including outdoor spaces
- Establish and maintain safe working practices amongst staff and children
- Make arrangements for ensuring safety and the minimising of risks to health in connection with the use, handling, storage and transport of hazardous articles and substances
- Ensure the provision of sufficient information, instruction and supervision to enable all people working in or using the nursery to avoid hazards and contribute positively to their own health and safety and to ensure that staff have access to regular health and safety training
- Maintain a healthy and safe nursery with safe entry and exit routes
- Formulate effective procedures for use in case of fire and other emergencies and for evacuating the nursery premises. Practice this procedure on a regular basis to enable the safe and speedy evacuation of the nursery
- Maintain a safe working environment for pregnant workers or for workers who have recently given birth, including undertaking appropriate risk assessments
- Maintain a safe environment for those with special educational needs and disabilities and ensure all areas of the nursery are accessible (wherever practicable)
- Provide a safe environment for students or trainees to learn in

- Encourage all staff, visitors and parents to report any unsafe working practices or areas to ensure immediate response by the management.

We believe the risks in the nursery environment are low and we will maintain the maximum protection for children, staff and parents. The nursery will:

- Ensure all entrances and exits from the building, including fire exits are clearly identifiable and remain clear at all times
- Regularly check the premises room by room for structural defects, worn fixtures and fittings or electrical equipment and take the necessary remedial action
- Ensure that all staff, visitors, parents and children are aware of the fire procedures and regular fire drills are carried out
- Have the appropriate fire detection and control equipment which is checked regularly to make sure it is in working order
- Ensure that all members of staff are aware of the procedure to follow in case of accidents for staff, visitors and children
- Ensure that all members of staff take all reasonable action to control the spread of infectious diseases and wear protective gloves and clothing where appropriate
- Ensure there are suitable hygienic changing facilities (see infection control policy)
- Prohibit smoking on the nursery premises
- Prohibit any contractor from working on the premises without prior discussion with the officer in charge
- Encourage children to manage risks safely and prohibit running inside the premises unless in designated areas
- Risk assess all electrical sockets and take appropriate measures to reduce risks where necessary and ensure no trailing wires are left around the nursery
- Ensure all cleaning materials are placed out of the reach of children and kept in their original containers
- Wear protective clothing when cooking or serving food
- Prohibit certain foods that may relate to children's allergies, e.g. peanuts are not allowed in the nursery
- Follow the allergies and allergic reactions policy for children who have allergies
- Ensure risk assessments are undertaken on the storage and preparation of food produce within the nursery
- Familiarise all staff and visitors with the position of the first aid boxes and ensure all know who the appointed first aiders are
- Provide appropriately stocked first aid boxes and check their contents regularly

- Ensure children are supervised at all times
- Ensure no student or volunteer is left unsupervised at any time.

Responsibilities

Responsibility for Health and Safety in the nursery is that of **Nakeisha Morris**.

The manager has overall and final responsibility for this policy being carried out at: Little Stepping Stones Day Nurseries, Argento Tower, Mapleton Road, London, SW18 4GA

The deputy nursery manager will be responsible in her absence.

All employees have the responsibility to co-operate with senior staff and the manager to achieve a healthy and safe nursery and to take reasonable care of themselves and others. Neglect of health and safety regulations/duties will be regarded as a disciplinary matter (see separate policy on Disciplinary Procedures)

Whenever a member of staff notices a health or safety problem, which they are not able to rectify, they must immediately report it to the appropriate person named above. Parents and visitors are requested to report any concerns they may have to the deputy manager, manager or owner.

Daily contact, monthly staff meetings and health and safety meetings provide consultation between management and employees. This will include health and safety matters.

Health & Safety Training

Person responsible for monitoring staff training is **Nakeisha Morris**.

Health and safety is covered in all induction training for new staff

Training Table:

Area	Training Required	Who
First Aid	Course	All Staff
Dealing With Blood	In House Training/Course	All Staff & Students
Safeguarding/Child Protection	In House Training/Course	All Staff & Students
Risk Assessment	In House Training/Course	All Staff
Fire Safety Procedures	In House Training	All Staff & Students
Use Of Fire Extinguisher	In House Training/Course	All Staff Where Possible
Manual Handling	In House Training/Course	All Staff & Students
Stress Awareness & Management	In House Training/Course	All Staff
Changing Of Nappies	In House Training	All Staff & Students
Fire Warden Duties	External Course	Fire Warden

All our staffs hold full Paediatric First Aid certificates.

Health & Safety Arrangements

- All staff are responsible for general health and safety in the nursery

- Risk assessments will be conducted on all areas of the nursery, including rooms, activities, outdoor areas, resources and cleaning equipment
- These are reviewed at regular intervals and when arrangements change
- All outings away from the nursery (however short) will include a prior risk assessment - more details are included in our outings policy
- All equipment, rooms and outdoor areas will be checked thoroughly by staff before children access them or the area. These checks will be recorded and initialled by the staff responsible. Unsafe areas will be made safe/removed from the area by this member of staff to promote the safety of children. If this cannot be achieved the manager will be notified immediately
- We provide appropriate facilities for all children, staff, parents and visitors to receive a warm welcome and provide for their basic care needs, e.g. easy to access toilet area and fresh drinking water
- The nursery will adhere to the Control Of Substances Hazardous to Health Regulation (COSHH) to ensure all children, staff, parents and visitors are safe in relation to any chemicals we may use on the premises
- All staff and students will receive appropriate training in all areas of health and safety which will include risk assessments, manual handling and fire safety. We may also use benefit risk assessments for particular activities and resources for children
- We have a clear accident and first aid policy to follow in the case of any person in the nursery suffering injury from an accident or incident
- We have a clear fire safety policy and procedure, which supports the prevention of fire and the safe evacuation of all persons in the nursery. This is to be shared with all staff, students, parents and visitors to the nursery
- We review accident and incident records to identify any patterns/hazardous areas
- All health and safety matters are reviewed informally on an ongoing basis and formally every six months or when something changes. Staff and parents will receive these updates, as with all policy changes, as and when they happen
- Staff and parents are able to contribute to any policy through the suggestion scheme and during the regular meetings held at nursery.

The policy is kept up to date and reviewed especially when the nursery changes in nature and size. It is revised annually, or as and when required. We therefore welcome any useful comments from members of staff, parents and visitors regarding this policy.

13. Sickness & Illness Policy

At Little Stepping Stones Day Nurseries we promote the good health of all children attending. To help keep children healthy and minimise infection, we do not expect children to attend nursery if they are unwell. If a child is unwell it is in their best interest to be in a home environment with adults they know well rather than at nursery with their peers.

Our Procedures

In order to take appropriate action when children become ill and to minimise the spread of infection we implement the following procedures:

- If a child becomes ill during the nursery day, we contact their parent(s) and ask them to pick up their child as soon as possible. During this time we care for the child in a quiet, calm area with their key person, wherever possible
- We follow the guidance given to us by Public Health England (formerly the Health Protection Agency) in Guidance on Infection Control in Schools and other Child Care Settings and advice from our local health protection unit on exclusion times for specific illnesses, e.g. sickness and diarrhoea, measles and chicken pox, to protect other children in the nursery.
- Should a child have an infectious disease, such as sickness and diarrhoea, they must not return to nursery until they have been clear for at least 48 hours. We notify Ofsted as soon as possible and in all cases within 14 days of the incident where we have any child or staff member with food poisoning. We inform all parents if there is a contagious infection identified in the nursery, to enable them to spot the early signs of this illness. We thoroughly clean and sterilise all equipment and resources that may have come into contact with a contagious child to reduce the spread of infection
- We exclude all children on antibiotics for the first 48 hours of the course (unless this is part of an ongoing care plan to treat individual medical conditions e.g. asthma and the child is not unwell) This is because it is important that children are not subjected to the rigours of the nursery day, which requires socialising with other children and being part of a group setting, when they have first become ill and require a course of antibiotics
- We have the right to refuse admission to a child who is unwell. This decision will be taken by the manager on duty and is non-negotiable
- We make information/posters about head lice readily available and all parents are requested to regularly check their children's hair. If a parent finds that their child has head lice we would be grateful if they could inform the nursery so that other parents can be alerted to check their child's hair.

Meningitis Procedure

If a parent informs the nursery that their child has meningitis, the nursery manager will contact the Infection Control (IC) Nurse for their area. The IC Nurse will give guidance and support in each individual case. If parents do not inform the nursery, we will be contacted directly by the IC Nurse and the appropriate support will be given. We will follow all guidance given and notify any of the appropriate authorities including Ofsted if necessary.

Recommended Period of Exclusion By Public Health England

Infection	Recommended Period To Be Kept Away From Nursery
Chickenpox	Minimum Five Days From The Onset Of Rash And / Or Until All Vesicles Have Crusted Over
German Measles (Rubella)	Six Days From Onset Of Rash
Hand, Foot & Mouth	None
Impetigo	Until Lesions Are Crusted And Healed, Or 48 Hours After Commencing Antibiotic Treatment
Measles	Four Days From Onset Of Rash
Scarlet Fever	Child Can Return 24 Hours After Commencing Appropriate Antibiotic Treatment
Shingles	Exclude Only If Rash Is Weeping And Cannot Be Covered
Diarrhoea And / Or Vomiting	48 Hours From Last Episode Of Diarrhoea Or Vomiting
Whooping Cough (Pertussis)	Five Days From Commencing Antibiotic Treatment, Or 21 Days From Onset Of Illness If No Antibiotic Treatment
Mumps	Exclude Child For Five Days After Onset Of Swelling

Transporting Children To Hospital Procedure

The nursery manager/staff member must:

- Call for an ambulance immediately if the sickness is severe. **DO NOT** attempt to transport the sick child in your own vehicle
- Whilst waiting for the ambulance, contact the parent(s) and arrange to meet them at the hospital
- Redeploy staff if necessary to ensure there is adequate staff deployment to care for the remaining children. This may mean temporarily grouping the children together
- Arrange for the most appropriate member of staff to accompany the child taking with them any relevant information such as registration forms, relevant medication sheets, medication and the child's comforter
- Inform a member of the management team immediately
- Remain calm at all times. Children who witness an incident may well be affected by it and may need lots of cuddles and reassurance. Staff may also require additional support following the accident.

14. Infection Control Policy

At Little Stepping Stones Day Nurseries we promote the good health of all children attending through maintaining high hygiene standards and reducing the chances of infection being spread.

Breathing in air containing the virus, which is produced when an infected person talks, coughs or sneezes, can easily pass viruses and infections from person to person. It can also spread through hand/face contact after touching a person or surface contaminated with viruses.

We follow the guidance below to prevent a virus or infection from moving around the nursery. Our staff:

- Encourage all children use tissues when coughing and sneezing to catch germs
- Ensure all tissues are disposed of in a hygienic way and all children and staff wash their hands once the tissue is disposed of
- Develop children's understanding of the above and the need for good hygiene procedures in helping them to stay healthy
- Wear the appropriate Personal Protective Equipment (PPE) when changing nappies, toileting children and dealing with any other bodily fluids. Staff are requested to dispose of these in the appropriate manner and wash hands immediately
- Clean and sterilise all potties and changing mats before and after each use
- Clean toilets at least daily and check them throughout the day
- Remind children to wash their hands before eating, after visiting the toilet, playing outside or being in contact with any animal and explain the reasons for this
- Clean all toys, equipment and resources on a regular basis by following a comprehensive cleaning rota and using antibacterial cleanser or through washing in the washing machine
- Wash or clean all equipment used by babies and toddlers as and when needed including when the children have placed it in their mouth
- Store dummies in individual hygienic dummy boxes labelled with the child's name to prevent cross-contamination with other children
- Store toothbrushes (where applicable) hygienically to prevent cross-contamination
- Immediately clean and sterilise (where necessary) any dummy or bottle that falls on the floor or is picked up by another child
- Provide labelled individual bedding for children that is not used by any other child and wash this at least once a week
- Ask parents and visitors to remove all outdoor footwear or use shoe covers when entering rooms where children may be crawling or sitting on the floor
- Where applicable wear specific indoor shoes or slippers whilst inside the rooms and make sure that children wear them as well
- Follow the sickness and illness policy when children are ill to prevent the spread of any infection in the nursery. Staffs are also requested to stay at home if they are contagious.

In addition:

little
STEPPING STONES
d a y n u r s e r i e s

- The nursery manager retains the right of refusal of all children, parents, staff and visitors who are deemed contagious and may impact on the welfare of the rest of the nursery
- Parents will be made aware of the need for these procedures in order for them to follow these guidelines whilst in the nursery
- Periodically each room in the nursery will be deep cleaned including carpets and soft furnishings to ensure the spread of infection is limited. This will be implemented earlier if the need arises
- The nursery will ensure stocks of tissues, hand washing equipment, cleaning materials and sterilising fluid are maintained at all times and increased during the winter months or when flu and cold germs are circulating.

14. Medication Policy

At Little Stepping Stones Day Nurseries we promote the good health of children attending nursery and take necessary steps to prevent the spread of infection (see "Sickness & Illness Policy"). If a child requires medicine we will obtain information about the child's needs for this, and will ensure this information is kept up to date.

We follow strict guidelines when dealing with medication of any kind in the nursery and these are set out below.

Medication Prescribed By A Doctor, Dentist, Nurse Or Pharmacist

N.B: Medicines containing aspirin will only be given if prescribed by a doctor

- Prescription medicine will only be given to the person named on the bottle for the dosage stated
- Medicines must be in their original containers
- Those with parental responsibility for any child requiring prescription medication should hand over the medication to the duty manager who will then note the details of the administration on the appropriate form and another member of staff will check these details
- Those with parental responsibility **must give prior written permission for the administration of each and every medication.** However, we will accept written permission once for a whole course of medication or for the ongoing use of a particular medication under the following circumstances:
 1. The written permission is only acceptable for that brand name of medication and cannot be used for similar types of medication, e.g. if the course of antibiotics changes, a new form will need to be completed
 2. The dosage on the written permission is the only dosage that will be administered. We will not give a different dose unless a new form is completed
 3. Parents must notify us **IMMEDIATELY** if the child's circumstances change, e.g. a dose has been given at home, or a change in strength/dose needs to be given.
- The nursery will not administer a dosage that exceeds the recommended dose on the instructions unless accompanied by written instructions from a relevant health professional such as a letter from a doctor or dentist
- The parent must be asked when the child has last been given the medication before coming to nursery; and the staff member must record this information on the medication form. Similarly when the child is picked up, the parent or guardian must be given precise details of the times and dosage given throughout the day. The parent's signature must be obtained at both times
- At the time of administering the medicine, a senior member of staff will ask the child to take the medicine, or offer it in a manner acceptable to the child at the prescribed time and in the prescribed form. (It is important to note that staff working with children are not legally obliged to administer medication)
- If the child refuses to take the appropriate medication then a note will be made on the form
- Where medication is "essential" or may have side effects, discussion with the parent will take place to establish the appropriate response.

Non-Prescription Medication

- The nursery will not administer any non-prescription medication containing aspirin
- The nursery will only administer non-prescription medication for a short initial period, dependant on the medication or the condition of the child. After this time medical attention should be sought
- If the nursery feels the child would benefit from medical attention rather than non-prescription medication, we reserve the right to refuse nursery care until the child is seen by a medical practitioner
- If a child needs liquid paracetamol or similar medication during their time at nursery, such medication will be treated as prescription medication with the nursery providing one specific type of medication should parents wish to use this
- On registration, parents will be asked if they would like to fill out a medication form to consent to their child being given a specific type of liquid paracetamol or anti-histamine in particular circumstances such as an increase in the child's temperature or a wasp or bee sting. This form will state the dose to be given, the circumstances in which this can be given e.g. the temperature increase of their child, the specific brand name or type of non-prescription medication and a signed statement to say that this may be administered in an emergency if the nursery CANNOT contact the parent. The onus is on the parent to provide their requested medication.
- An emergency nursery supply of fever relief (e.g Calpol) and anti-histamines (e.g. Piriton) will be stored on site. This will be checked at regular intervals by the designated trained first aider to make sure that it complies with any instructions for storage and is still in date
- If a child does exhibit the symptoms for which consent has been given to give non-prescription medication during the day the nursery will make every attempt to contact the child's parents. Where parents cannot be contacted then the nursery manager will take the decision as to whether the child is safe to have this medication based on the time the child has been in the nursery, the circumstances surrounding the need for this medication and the medical history of the child on their registration form. Giving non-prescription medication will be a last resort and the nursery staff will use other methods first to try and alleviate the symptoms, e.g. for an increase in temperature the nursery will remove clothing, use fanning, tepid cooling with a wet flannel. The child will be closely monitored until the parents collect the child
- For any non-prescription cream for skin conditions e.g. Sudocrem, prior written permission must be obtained from the parent and the onus is on the parent to provide the cream which should be clearly labelled with the child's name
- If any child is brought to the nursery in a condition in which he/she may require medication sometime during the day, the manager will decide if the child is fit to be left at the nursery. If the child is staying, the parent must be asked if any kind of medication has already been given, at what time and in what dosage and this must be stated on the medication form
- As with any kind of medication, staff will ensure that the parent is informed of any non-prescription medicines given to the child whilst at the nursery, together with the times and dosage given
- The nursery **DOES NOT** administer any medication unless prior written consent is given for each and every medicine.

Injections, Pessaries, Suppositories

As the administration of injections, pessaries and suppositories represents intrusive nursing, we will not administer these without appropriate medical training for every member of staff caring for this child. This training is specific for every child and not generic. The nursery will do all it can to make any reasonable adjustments including working with parents and other professionals to arrange for appropriate health officials to train staff in administering the medication.

Staff Medication

All nursery staff have a responsibility to work with children only where they are fit to do so. Staff must not work with children where they are infectious or too unwell to meet children's needs. This includes circumstances where any medication taken affects their ability to care for children, for example, where it makes a person drowsy. If any staff member believes that their condition, including any condition caused by taking medication, is affecting their ability they must inform their line manager and seek medical advice. The nursery manager & registered provider will decide if a staff member is fit to work, including circumstances where other staff members notice changes in behaviour suggesting a person may be under the influence of medication. This decision will include any medical advice obtained by the individual or from an occupational health assessment.

Where staff may occasionally or regularly need medication, any such medication must be kept in the nursery office where staff may need easy access to the medication such as an asthma inhaler. In all cases it must be stored out of reach of the children. It must not be kept in the first aid box and should be labelled with the name of the member of staff.

Storage

All medication for children must have the child's name clearly written on the original container and kept in a closed box, which is out of reach of all children.

Emergency medication, such as inhalers and EpiPens, will be within easy reach of staff in case of an immediate need, but will remain out of children's reach.

Any antibiotics requiring refrigeration must be kept in a fridge inaccessible to children.

All medications must be in their original containers, labels must be legible and not tampered with or they will not be given. All prescription medications should have the pharmacist's details and notes attached to show the dosage needed and the date the prescription was issued. This will all be checked, along with expiry dates, before staff agree to administer medication.

16. Promoting Positive Behaviour Policy

At Little Stepping Stones Day Nurseries we believe that children flourish best when they know how they and others are expected to behave. Children gain respect through interaction with caring adults who act as good role models, show them respect and value their individual personalities. The nursery encourages and praises positive, caring and polite behaviour at all times and provides an environment where children learn to respect themselves, other people and their surroundings.

Children need to have set boundaries of behaviour for their own safety and the safety of their peers. Within the nursery we aim to set these boundaries in a way, which helps the child to develop a sense of the significance of their own behaviour, both on their own environment and those around them. Restrictions on the child's natural desire to explore and develop their own ideas and concepts are kept to a minimum.

We aim to:

- Recognise the individuality of all our children and that some behaviours are normal in young children e.g. biting
- Encourage self-discipline, consideration for each other, our surroundings and property
- Encourage children to participate in a wide range of group activities to enable them to develop their social skills
- Ensure that all staff act as positive role models for children
- Encourage parents and other visitors to be positive role models and challenge any poor behaviour shown
- Work in partnership with parents by communicating openly
- Praise children and acknowledge their positive actions and attitudes, therefore ensuring that children see that we value and respect them
- Encourage all staff working with children to accept their responsibility for implementing the goals in this policy and to be consistent
- Promote non-violence and encourage children to deal with conflict peacefully
- Provide a key person system enabling staff to build a strong and positive relationship with children and their families
- Provide activities and stories to help children learn about accepted behaviours, including opportunities for children to contribute to decisions about accepted behaviour where age/stage appropriate
- Have a named person who has overall responsibility for behaviour management.

The named person for managing behaviour is **Nakeisha Morris**. She will:

- Advise other staff on behaviour issues
- Along with each room leader will keep up to date with legislation and research
- Support changes to policies and procedures in the nursery

- Access relevant sources of expertise where required and act as a central information source for all involved
- Attend regular external training events, and ensure all staff attend relevant in-house or external training for behaviour management. We keep a record of staff attendance at this training.

Our nursery rules are concerned with safety and care and respect for each other. We keep the rules to a minimum and ensure that these are age and stage appropriate. We regularly involve children in the process of setting rules to encourage cooperation and participation and ensure children gain understanding of the expectations of behaviour relevant to them as a unique child.

Children who behave inappropriately by physically abusing another child or adult e.g. biting, or through verbal bullying, are helped to talk through their actions and apologise where appropriate. We make sure that the child who has been upset is comforted and the adult will confirm that the other child's behaviour is not acceptable. We always acknowledge when a child is feeling angry or upset and that it is the behaviour that is not acceptable, not the child.

When Children Behave In Unacceptable Ways:

- We never use or threaten to use physical punishment/corporal punishment such as smacking or shaking
- We only use physical intervention for the purpose of averting immediate danger or personal injury to any person (including the child) or to manage a child's behaviour if absolutely necessary. We keep a record of any occasions where physical intervention is used and inform parents on the same day, or as reasonably practicable
- We recognise that there may be times where children may have regular occasions where they lose control and may need individual techniques to restrain them. This will only be carried out by staff who have been appropriately trained to do so. Any restraints will only be done following recommended guidance and training and only with a signed agreement from parents on when to use it. We will complete an incident form following any restraints used and notify the parents
- We do not single out children or humiliate them in any way. Where children use unacceptable behaviour they will, wherever possible, be re-directed to alternative activities. Discussions with children will take place as to why their behaviour was not acceptable, respecting their level of understanding and maturity
- Staff will not raise their voices (other than to keep children safe)
- In any case of misbehaviour, we always make it clear to the child or children in question, that it is the behaviour and not the child that is unwelcome
- We decide how to handle a particular type of behaviour depending on the child's age, level of development and the circumstances surrounding the behaviour. This may involve asking the child to talk and think about what he/she has done. All staff support children in developing empathy and children will only be asked to apologise if they have developed strong empathy skills and have a good understanding of why saying sorry is appropriate
- We help staff to reflect on their own responses towards challenging behaviours to ensure that their reactions are appropriate
- We inform parents if their child's behaviour is unkind to others or if their child has been upset. In all cases we deal with inappropriate behaviour in nursery at the time. We may ask parents to meet with staff to discuss their child's behaviour, so that if there are any difficulties we can work together to ensure consistency between their home and the nursery. In some cases we may

request additional advice and support from other professionals, such as an educational psychologist

- We support children in developing non-aggressive strategies to enable them to express their feelings
- We keep confidential records on any inappropriate behaviour that has taken place. We inform parents and ask them to read and sign any incidents concerning their child
- We support all children to develop positive behaviour, and we make every effort to provide for their individual needs
- Through partnership with parents and formal observations, we make every effort to identify any behavioural concerns and the causes of that behaviour. From these observations and discussions we will implement an individual behaviour modification plan where a child's behaviour involves aggressive actions towards other children and staff, for example hitting, kicking etc. The manager will complete risk assessments identifying any potential triggers or warning signs ensuring other children's and staff's safety at all times. In these instances we may remove a child is removed from an area until they have calmed down.

Anti-Bullying

Bullying takes many forms. It can be physical, verbal or emotional, but it is always a repeated behaviour that makes other people feel uncomfortable or threatened. We acknowledge that any form of bullying is unacceptable and will be dealt with immediately while recognising that physical aggression is part of children's development in their early years.

We recognise that children need their own time and space and that it is not always appropriate to expect a child to share. We believe it is important to acknowledge each child's feelings and to help them understand how others might be feeling.

We encourage children to recognise that bullying, fighting, hurting and discriminatory comments are not acceptable behaviour. We want children to recognise that certain actions are right and that others are wrong.

At our nursery, staff follow the procedure below to enable them to deal with challenging behaviour:

- Staff are encouraged to ensure that all children feel safe, happy and secure
- Staff are encouraged to recognise that active physical aggression in the early years is part of the child's development and that it should be channelled in a positive way
- Children are helped to understand that using aggression to get things is inappropriate and they will be encouraged to resolve problems in other ways
- Our staff will intervene when they think a child is being bullied, however mild or harmless it may seem
- Staff will initiate games and activities with children when they feel play has become aggressive, both indoors or out
- Staff will discuss any instance of bullying fully with the parents of all involved to look for a consistent resolution to the behaviour
- If any parent has a concern about their child, a member of staff will be available to discuss those concerns. It is only through co-operation that we can ensure our children feel confident and secure in their environment, both at home and in the nursery

- All concerns will be treated in the strictest confidence.

By positively promoting good behaviour, valuing co-operation and a caring attitude, we hope to ensure that children will develop as responsible members of society.

17. Biting Policy

At Little Stepping Stones Day Nurseries we follow a positive behaviour policy to promote positive behaviour at all times. However we understand that children may use certain behaviours such as biting as part of their development. Biting is a common behaviour that some young children go through and can be triggered when they do not yet have the words to communicate their anger, frustration or need.

Our Procedures

The nursery uses the following strategies to prevent biting: sensory activities, biting rings, adequate resources and staff who recognise when children need more stimulation or quiet times. However, in the event of a child being bitten we use the following procedures. The most relevant staff member(s) will:

- Comfort any child who has been bitten and check for any visual injury. Administer any first aid where necessary. Complete an accident form and inform the parents via telephone if deemed appropriate. Continue to observe the bitten area for signs of infection. For confidentiality purposes and possible conflict we do not disclose the name of the child who has caused the bite to the parents.
- Tell the child who has caused the bite in terms that they understand that biting (the behaviour and not the child) is unkind and show the child that it makes staff and the child who has been bitten sad. The child will be asked to say sorry if developmentally appropriate or helped to develop their empathy skills by giving the child who has been bitten a favourite book or comforter. Complete an incident form to share with the parents at the end of the child's session.
- If a child continues to bite, carry out observations to try to distinguish a cause, e.g. tiredness or frustration.
- Arrange for a meeting with the child's parents to develop strategies to prevent the biting behaviour. Parents will be reassured that it is part of a child's development and not made to feel that it is their fault.
- In the event of a bite breaking the skin and to reduce the risk of infection from bacteria, give prompt treatment to both the child who has bitten and the child who had been bitten.

If a child or member of staff sustains a bite wound where the skin has been severely broken arrange for urgent medical attention after initial first aid has been carried out.

In cases where a child may repeatedly bite and/or if they have a particular special educational need or disability that lends itself to increased biting, e.g. in some cases of autism where a child doesn't have the communication skills, the nursery manager will carry out a risk assessment and may recommend immunisation with hepatitis B vaccine for all staff and children.

20. Complaints & Compliments Policy

At Little Stepping Stones Day Nurseries we believe that parents are entitled to expect courtesy and prompt, careful attention to their individual needs and wishes. We hope that at all times parents are happy with the service provided and we encourage parents to voice their appreciation to the staff concerned.

We record all compliments and share these with staff.

We welcome any suggestions from parents on how we can improve our services, and will give prompt and serious attention to any concerns that parents may have. Any concerns will be dealt with professionally and promptly to ensure that any issues arising from them are handled effectively and to ensure the welfare of all children, enable ongoing cooperative partnership with parents and to continually improve the quality of the nursery.

We have a formal procedure for dealing with complaints where we are not able to resolve a concern. Where any concern or complaint relates to child protection, we follow our "Safeguarding Children / Child Protection Policy".

Internal Complaints Procedure

Stage 1

If any parent should have cause for concern or any queries regarding the care or early learning provided by the nursery, they should in the first instance take it up with the child's key person or a senior member of staff/room lead.

Stage 2

If the issue remains unresolved or parents feel they have received an unsatisfactory outcome, then they must present their concerns in writing as a formal complaint to the nursery manager. The manager will then investigate the complaint and report back to the parent within five working days. The manager will document the complaint fully and the actions taken in relation to it in the complaints log book. (Most complaints are usually resolved informally at stage 1 or 2.)

Stage 3

If the matter is still not resolved, the nursery will hold a formal meeting between the manager, parent and the senior staff member to ensure that it is dealt with comprehensively. The nursery will make a record of the meeting and document any actions. All parties present at the meeting will review the accuracy of the record, and be asked to sign to agree it and receive a copy. This will signify the conclusion of the procedure.

Stage 4

If the matter cannot be resolved to their satisfaction, then parents have the right to raise the matter with Ofsted. Parents are made aware that they can contact Ofsted at any time they have a concern, including at all stages of the complaints procedure, and are given information on how to contact Ofsted. Ofsted is the registering authority for nurseries in England and investigates all complaints that suggest a provider may not be meeting the requirements of the nursery's registration. It risk assesses all complaints made and may visit the nursery to carry out a full inspection where it believes requirements are not met.

A record of complaints will be kept in the nursery. The record will include the name of the complainant, the nature of the complaint, date and time complaint received, action(s) taken, result of any investigations and any information given to the complainant including a dated response.

Parents will be able to access this record if they wish to, however, all personal details relating to any complaint will be stored confidentially and will be only accessible by the parties involved. Ofsted inspectors will have access to this record at any time during visits to ensure actions have been met appropriately.

Contact Details For Ofsted:

Email: enquiries@ofsted.gov.uk

Telephone: 0300 123 1231

By Post: Ofsted, Piccadilly Gate, Store Street, Manchester, M1 2WD

Parents will also be informed if the nursery becomes aware that they are going to be inspected and after inspection the nursery will provide a copy of the report to parents and/or carers of children attending on a regular basis.

32. Alcohol & Substance Misuse Policy

At Little Stepping Stones Day Nurseries we are committed to providing a safe environment that helps to ensure the welfare of the children in our care. This includes making sure that children are not exposed to adults who may be under the influence of alcohol or other substances that may affect their ability to care for children.

Alcohol

Under the Health and Safety at Work Act 1974, companies have a legal requirement to provide a safe working environment for all of their employees.

Anyone who arrives at the nursery clearly under the influence of alcohol will be asked to leave. If they are a member of staff, the nursery will investigate the matter and will initiate the disciplinary process as a result of which action may be taken, including dismissal. If they are a parent the nursery will judge if the parent is suitable to care for the child. The nursery may call the second contact on the child's registration form to collect them. If a child is thought to be at risk the nursery will follow the safeguarding children/child protection procedure and the police/children's social services may be called.

If anyone arrives at the nursery in a car under the influence of alcohol the police will be contacted.

Staff, students, parents, carers, visitors, contractors etc. are asked not to bring alcohol on to the nursery premises.

Substance Misuse

Anyone who arrives at the nursery under the influence of illegal drugs, or any other substance including medication, that affects their ability to care for children, they will be asked to leave the premises immediately. If they are a member of staff, an investigation will follow which may lead to consideration of disciplinary action, as a result of which dismissal could follow. If they are a parent the nursery will judge if the parent is suitable to care for the child. The nursery may call the second contact on the child's registration form to collect them. If a child is thought to be at risk the nursery will follow the Safeguarding Children/Child Protection Procedure and the police may be called.

The nursery will contact the police if anyone (including staff, students, volunteers, contractors and visitors) is suspected of being in possession of illegal drugs or if they are driving or may drive when under the influence of illegal drugs.

If they are a member of staff serious disciplinary procedures will be followed.

If a member of staff is taking prescriptive medication that may affect their ability to work, they must inform the nursery manager as soon as possible to arrange for a risk assessment to take place.

Safeguarding/Child Protection

If a parent or carer is clearly over the alcohol limit, or under the influence of illegal drugs and it is believed the child is at risk we will follow our Safeguarding/Child Protection Procedures, contact social services and the police.

Staff will do their utmost to prevent a child from travelling in a vehicle driven by them and if necessary if the police will be called.

Where an illegal act is suspected to have taken place, the police will be called.

34. Adverse Weather Policy

At Little Stepping Stones Day Nurseries we have an Adverse Weather Policy in place to ensure our nursery is prepared for all weather conditions that might affect the running of the nursery such as floods, snow and heat waves.

If any of these incidents impact on the ability of the nursery to open or operate, we will contact parents via phone, email or text message.

We will not take children outdoors where we judge that weather conditions make it unsafe to do so.

Flood

In the case of a flood we will follow our "Critical Incident Procedure" to enable all children and staff to be safe and continuity of care to be planned for.

Snow Or Other Severe Weather

If high snowfall, or another severe weather condition such as dense fog, is threatened during a nursery day then the duty manager will take the decision as to whether to close the nursery. This decision will take into account the safety of the children, their parents and the staff team. In the event of a planned closure during the nursery day, we will contact all parents to arrange for collection of their child.

In the event of staff shortages due to snow or other severe weather we will contact all available off duty staff and/or agency staff and group the children differently until they are able to arrive. If we are unable to maintain statutory ratio requirements after all avenues are explored we will contact Ofsted to inform them of this issue, recording all details in our incident file. If we feel the safety, health or welfare of the children is compromised then we will take the decision to close the nursery.

Heat Wave

Please refer to our "Sun Care Policy".

50. Immunisation Policy

At Little Stepping Stones Day Nurseries we expect that children are vaccinated in accordance with the government's health policy and their age. We ask that parents inform us if their children are not vaccinated so that we can manage any risks to their own child or other children/staff/parents in the best way possible. The nursery manager must be aware of any children who are not vaccinated within the nursery in accordance with their age.

We make all parents aware that some children may not be vaccinated in the nursery, due to their age, medical reasons or parental choice. Our nursery does not discriminate against children who have not received their immunisations and will not disclose individual details to other parents. However, we will share the risks of infection if children have not had immunisations and ask parents to sign a disclaimer.

We record, or encourage parents to record, information about immunisations on children's registration documents and we update this information as and when necessary, including when the child reaches the age for the appropriate immunisations.

Staff vaccinations policy

It is the responsibility of all staff to ensure they keep up to date with their vaccinations for the following and keeps the nursery informed:

- Tetanus
- Tuberculosis
- Rubella
- Hepatitis
- Polio

If a member of staff is unsure as to whether they are up to date, then we recommend that they visit their GP or practice nurse for their own good health.

Emergency Information

We keep emergency information for every child and update it every six months with regular reminders to parents in newsletters, at parents' evenings and a reminder notice on the Parent Information Board.

54. Settling In Policy

At Little Stepping Stones Day Nurseries we aim to support parents and other carers to help their children settle quickly and easily by giving consideration to the individual needs and circumstances of every child and their families. Our aim is for children to feel safe, stimulated and happy in the nursery and to feel secure and comfortable with all staff. We also want parents to have confidence in both their children's continued well-being and their role as active partners, with the child being able to benefit from what the nursery has to offer.

All our staff know about the importance of building strong attachments with children. They are trained to recognise the different stages of attachment and use this knowledge to support children and families settling in to the nursery.

Our nursery will work in partnership with parents to settle their child into the nursery environment by:

- Allocating a key person to each child and his/her family, before he/she starts to attend. The key person welcomes and looks after the child ensuring that their care is tailored to meet their individual needs. He/she offers a settled relationship for the child and builds a relationship with his/her parents during the settling in period and throughout his/her time at the nursery, to ensure the family has a familiar contact person to assist with the settling in process
- Providing parents with relevant information about the policies and procedures of the nursery
- Encouraging parents and children to visit the nursery during the weeks before an admission is planned and arranging home visits where applicable
- Planning settling in visits and introductory sessions (lasting approximately 1-2 hours). These will be provided free of charge over a one or two week period, dependent on individual needs, age and stage of development
- Welcoming parents to stay with their child during the first few weeks until the child feels settled and the parents feel comfortable about leaving their child. Settling in visits and introductory sessions are key to a smooth transition and to ensure good communication and information sharing between staff and parents
- Reassuring parents whose children seem to be taking a long time settling in to the nursery and developing a plan with them
- Encouraging parents, where appropriate, to separate themselves from their children for brief periods at first, gradually building up to longer absences
- Assigning a buddy/back-up key person to each child in case the key person is not available. Parents will be made aware of this to support the settling process and attachment
- Reviewing the nominated key person if the child is bonding with another member of staff to ensure the child's needs are supported
- Respecting the circumstances of all families, including those who are unable to stay for long periods of time in the nursery and reassure them of their child's progress towards settling in
- Not taking a child on an outing from the nursery until he/she is completely settled.
- Providing an "All About Me" form for the parents to fill in about the child and providing the parents an "All About Us" form for them to introduce the key person / buddy to the child in their home setting.

55. Transitions Policy

At Little Stepping Stones Day Nurseries we recognise that young children will experience many transitions in their early years; some of these planned and some unplanned. We are sensitive to the impact of such changes to children and this policy sets out the ways in which we support children going through these transitions.

Some examples of transitions that young children and babies may experience are:

- Starting nursery
- Moving between different rooms within the nursery
- Starting school or moving nurseries
- Family breakdowns
- New siblings
- Moving home
- Death of a family member or close friend
- Death of a family pet.

Staff are trained to observe their key children and to be sensitive to any changes in their behaviour and personality. We respectfully ask that parents inform us of any changes in the home environment that may impact on their child so staff can be aware of the reasons behind any potential changes in the child's behaviour.

Starting Nursery

We recognise that starting nursery may be difficult for some children and their families. We have a "Settling In Policy" to support the child and their family.

Moving Rooms Procedure

When a child is ready to move to a different room in the nursery, we follow the process set out below and work with the parents to ensure this is a seamless process in which the child is fully supported at all stages. This may include a handover meeting between the existing key person, new key person and parents.

- The child will spend short sessions in their new room prior to the permanent move to enable them to feel comfortable in their new surroundings
- The child's key person will go with the child on these initial visits to enable a familiar person to be present at all times
- Wherever possible groups of friends will be moved together to enable these friendships to be kept intact and support the children with the peers they know
- Parents will be kept informed of all visits and the outcomes of these sessions e.g. through photographs, discussions or diary entries
- Only when the child has settled in through these taster sessions will the permanent room move take place. If a child requires more support this will be discussed between the key person, parent, manager and room leader of the new room to agree how and when this will happen. This may include moving their key person with them on a temporary basis.

Starting School Or Moving Childcare Providers

Starting school is an important transition and some children may feel anxious or distressed. We will do all we can to facilitate a smooth move and minimise any potential stresses. This following process relates to children going to school. However wherever possible, we will adapt this process to support children moving to another childcare provider e.g. childminder or another nursery.

- We provide a variety of resources that relate to the school, e.g. uniform to dress up in, a role play area set up as a school classroom, photographs of all the schools the children may attend. This will help the children to become familiar with this new concept and will aid the transition
- We invite school representatives into the nursery to introduce them to the children
- Where possible we use other ways to support the transition to school, e.g. inviting previous children from the nursery who have moved on to school to come back and talk to the children about their school experiences
- Where possible we plan visits to the school with the key person. Each key person will talk about the school with their key children who are due to move to school and discuss what they think may be different and what may be the same. They will talk through any concerns the child may have and initiate activities or group discussions relating to any issues to help children overcome these
- We produce a comprehensive report on every child starting school to enable teachers to have a good understanding of every child received. This will include their interests, strengths and level of understanding and development in key areas. This will support continuity of care and early learning.

Family Breakdowns

We recognise that when parents separate it can be a difficult situation for all concerned. We have a "Separated Families Policy" that shows how the nursery will act in the best interest of the child.

Moving Home & New Siblings

We recognise that both these events may have an impact on a child. Normally, parents will have advance notice of these changes and we ask parents to let us know about these events so we can support the child to be prepared. The key person will spend time talking to the child and providing activities that may help the child to act out any worries they have, e.g. through role play, stories and discussions.

Bereavement

We recognise that this may be a very difficult time for children and their families and have a separate policy on bereavement which we follow to help us offer support to all concerned should this be required.

If parents feel that their child requires additional support because of any changes in their life, we ask that you speak to the nursery manager and the key person to enable this support to be put into place.

59. Caring For Babies & Toddlers Policy

At Little Stepping Stones Day Nurseries we care for babies and toddler under the age of two as well as pre-school children.

We ensure their health, safety and well-being through the following:

- Implementing the EYFS requirements at all times and caring for babies and toddlers in a separate base room with a maximum number of **15** children with a minimum ratio of 1:3
- Allocating each baby and toddler a key person who works in partnership with their parent to meet their individual needs and routines
- Having well qualified staff that understand the needs of babies and toddlers, ensuring that at least half of the staff team caring for children under the age of two have undertaken specific training for working with babies
- Ensuring babies and toddlers have opportunities to see and play with older children whilst at nursery
- Toddlers transitioning to the older age groups or rooms when assessed as appropriate (see separate Transitions policy)
- Staff supervising all babies and toddlers and organising the environment to support both non-mobile and mobile babies and toddlers.

Environment

- The environment, equipment and resources are risk assessed and checked daily before the children access the rooms or area. This includes checking the stability of cots and areas around, low/highchairs and ensuring restraints on these, pushchairs and prams are intact and working
- All doors are fitted with viewing panels and door finger-guards to prevent accidents
- Outdoor shoes are removed or covered when entering the baby and toddler area(s). Staff remind parents and visitors to adhere to this procedure. Flooring is cleaned regularly
- Sterilisers are washed out and cleaned daily
- Large pieces of furniture are fixed to the walls to stop them falling on top of babies and young children
- Play and learning is planned in line with children's individual interests and the EYFS learning and development requirements.

Resources

- Care is taken to ensure that babies and toddlers do not have access to resources or activities containing small pieces, which may be swallowed or otherwise injure the child
- Babies and toddlers are closely supervised during all activities
- Resources and equipment that babies and young children have placed in their mouth are cleaned and/or sterilised after use
- All resources are frequently cleaned
- Soft furnishings are frequently cleaned
- The use of resources that restrict babies movement such as baby walkers, pushchairs, jumparoos, etc will not be used on a regular basis because these can contribute to delayed physical development. We follow NHS guidelines which recommends that if these resources are to be used then it should be for no more than 20 minutes at a time.

Intimate Care

- Babies and toddlers have their nappies changed according to their individual needs and requirements by their key person, wherever possible. Checks are documented with the time and staff initials and information is shared with parents
- When developmentally appropriate, we work closely with parents to sensitively support toilet training in a way that suits the individual needs of the child
- Potties are washed and disinfected after every use. Changing mats are wiped with anti-bacterial cleanser before and after every nappy change
- Staff ensure all the equipment is ready before babies and toddlers are placed on the changing mat
- No child is ever left unattended during nappy changing time
- Intimate care times are seen as opportunities for one-to-one interactions
- Staff do not change nappies whilst pregnant until a risk assessment has been discussed and conducted. Students only change nappies with the support and close supervision of a qualified member of staff (see separate Student policy)
- Cameras, mobile phones and other equipment capable of recording images (Smartwatches, tablets etc) are not permitted in toilet and nappy changing areas
- Nappy sacks and creams are not left in reach of babies and children
- We always follow systems in place to ensure there is an adequate supply of clean bedding, towels and spare clothes.

See separate Nappy Changing Policy and Intimate Care Policy.

Sleep

- We follow the NHS guidance to reduce the risk of Sudden Infant Death Syndrome (SIDS)
- Each baby and toddler has labelled nursery bedding which is washed at least weekly and when necessary, this takes into account any allergies and irritation to soap powders and any individual needs. For example if a child prefers to sleep in a sleeping bag, we will ask parents to bring one from home
- All cot mattresses and sleep mats meet necessary safety standards. We use a firm and flat mattress and waterproof mattress covers
- Safe sleep guidance is followed at all times, babies are always laid to sleep on their back, with their feet touching the foot of the cot. Children under two years are not given pillows, cot bumpers or any soft furnishings in order to prevent risk of suffocation
- We also share safe sleep advice with parents
- We ensure that sheets or thin blankets come no higher than the baby's shoulders, to prevent them wriggling under the covers. We make sure the covers are securely tucked in so they cannot slip over the baby's head
- Only sheets and blankets that are of good condition are used, any loose threads are removed
- Cots are checked before use to ensure no items are within reach i.e. hanging over or beside the cot (fly nets, cables, cord blinds)
- Babies sleeping outside have cat/fly nets over their prams and we ensure we only use prams that lie flat for sleeping so babies and toddlers are supported
- Sleeping children are supervised at all times and checks are completed every 10 minutes. This may increase to five minutes for younger babies and/or new babies. Checks are documented with the time and staff initials on the sleep check form and times are shared with parents.

See separate Sleep Policy.

Bottles

- Feeding times are seen as an opportunity for bonding between practitioner and child and where possible babies are fed by their key person
- Food and milk for babies is prepared in a separate within the kitchen which is specifically designated for this preparation. Handwashing is completed before preparation is undertaken
- Bottles of formula milk are only made up as and when the child needs them. Following the Department of Health guidelines, we only use recently boiled water to make formula bottles (left for no longer than 30 minutes to cool). We do not use cooled boiled water that is reheated. They are then cooled to body temperature, which means they should feel warm or cool, but not hot. Bottles are tested with a sterilised thermometer to ensure they are an appropriate temperature for the child to drink safely
- Bottles are only made following the instructions on the formula. If, during the making process, there are discrepancies, a new bottle will be made
- All new staff will be shown the procedure, and only when competent and confident will they make them on their own. Students are fully supervised
- Nursery bottles and teats are thoroughly cleaned with hot soapy water and sterilised after use (they are not washed in the dishwasher). They are replaced as and when required
- Unwanted or left over contents of bottles are disposed of after two hours
- Babies are never left propped up or laid in a cot or a pram with bottles as it is both dangerous and inappropriate
- A designated area is available for mothers who wish to breastfeed their babies or express milk
- Labelled breast milk is stored in the fridge.

Mealtimes

- All low/highchairs used for feeding are fitted with restraints and these are used at all times. Children are never left unattended when eating or when in highchairs. Restraints are removed and washed weekly or as needed
- Mealtimes are seen as social occasions and promote interactions. Staff always sit with babies and young children, interacting, promoting communication and social skills
- All children are closely supervised whilst eating and if any choking incidents occur paediatric first aid will be administered
- Babies and young children are encouraged to feed themselves with support, as required
- We work together with parents regarding weaning and offer any support, as required.

Comforters & Dummies

- We have a separate Use of dummies in nursery policy to promote communication and language development
- If dummies are used, they are cleaned and sterilised. This also applies to dummies which have been dropped on the floor
- All dummies are stored in separate labelled containers to ensure no cross-contamination occurs
- Dummies are disposed of if they become damaged
- Comforters including teddies and blankets are kept safe and provided at sleep times, or if the child becomes unsettled.

61. Sleep Policy

At Little Stepping Stones Day Nurseries we aim to ensure that all children have enough sleep to support their development and natural sleeping rhythms in a safe environment.

The safety of babies' sleeping is paramount. Our policy follows the advice provided by The Cot Death Society to minimise the risk of Sudden Infant Death. We make sure that:

- Babies are placed on their backs to sleep, but when babies can easily turn over from the back to the stomach, they are allowed to adopt whatever position they prefer to sleep
- Babies/toddlers are never put down to sleep with a bottle to self-feed
- Babies/toddlers are monitored visually when sleeping. Checks are recorded every 10 minutes and babies are never left in a separate sleep room without staff supervision at all times
- When monitoring, the staff member looks for the rise and fall of the chest and if the sleep position has changed
- As good practice we monitor babies under six months or a new baby sleeping during the first few weeks every five minutes until we are familiar with the child and their sleeping routines, to offer reassurance to them and families.

We provide a safe sleeping environment by:

- Monitoring the room temperature
- Using clean, light bedding/blankets and ensuring babies are appropriately dressed for sleep to avoid overheating
- Only using safety-approved cots or other suitable sleeping equipment (i.e. pods or mats) that are compliant with British Standard regulations, and mattress covers are used in conjunction with a clean fitted sheet
- Using a firm and flat mattress and waterproof mattress covers in conjunction with a clean fitted sheet
- Only letting babies sleep in prams if they lie flat and we have parents' written permission
- Not using cot bumpers or cluttering cots with soft toys, although comforters will be given where required
- Keeping all spaces around cots and beds clear from hanging objects i.e. hanging cords, blind cords, drawstring bags
- Ensuring every baby/toddler is provided with clean bedding
- Transferring any baby who falls asleep while being nursed by a practitioner to a safe sleeping surface to complete their rest
- Having a no smoking/ vaping policy.

We ask parents to complete sheets on their child's sleeping routine with the child's key person when the child starts at nursery and these are reviewed and updated at timely intervals. If a baby has an unusual sleeping routine or a position that we do not use in the nursery i.e. babies sleeping on their tummies, we

will explain our policy to the parents and ask them to sign to say they have requested we adopt a different position or pattern on the sleeping babies' form.

We recognise parents' knowledge of their child with regard to sleep routines and will, where possible, work together to ensure each child's individual sleep routines and well-being continues to be met. However, staff will not force a child to sleep or keep them awake against his or her will. They will also not usually wake children from their sleep.

Staff will discuss any changes in sleep routines at the end of the day and share observations and information about children's behaviour when they do not receive enough sleep.

Sleeping Twins

We follow the advice from The Lullaby Trust regarding sleeping twins while working with parents to maintain sleep routines and well-being.

Further information can be found at: <http://www.lullabytrust.org.uk>

63. Nutrition & Mealtimes Policy

At Little Stepping Stones Day Nurseries we believe that mealtimes should be happy, social occasions for children and staff alike. We promote shared, enjoyable positive interactions at these times.

We are committed to offering children healthy, nutritious and balanced meals and snacks which meet individual needs and requirements.

We will ensure that:

- A balanced and healthy breakfast, midday meal, tea and two daily snacks are provided for children attending a full day at the nursery
- Menus are planned in advance, rotated regularly and reflect cultural diversity and variation. These are displayed for children and parents to view
- We provide nutritious food at all snack and meal times, avoiding large quantities of fat, sugar, salt and artificial additives, preservatives and colourings
- Menus include at least 2 servings of fresh fruit and vegetables per day
- Fresh drinking water is always available and accessible. It is frequently offered to children and babies and intake is monitored. In hot weather staff will encourage children to drink more water to keep them hydrated
- Individual dietary requirements are respected. We gather information from parents regarding their children's dietary needs, including any special dietary requirements, preferences and food allergies that a child has and any special health requirements, before a child starts or joins the nursery. Where appropriate we will carry out a risk assessment in the case of allergies and work alongside parents to put into place an individual dietary plan for their child
- We give careful consideration to seating to avoid cross contamination of food from child to child. Where appropriate an adult will sit with children during meals to ensure safety and minimise risks. Where appropriate, age/stage discussions will also take place with all children about allergies and potential risks to make them aware of the dangers of sharing certain foods
- Staff show sensitivity in providing for children's diets and allergies. They do not use a child's diet or allergy as a label for the child, or make a child feel singled out because of her/his diet or allergy
- Staff set a good example and eat with the children and show good table manners. Meal and snack times are organised so that they are social occasions in which children and staff participate in small groups. During meals and snack times children are encouraged to use their manners and say 'please' and 'thank you' and conversation is encouraged
- Staff use meal and snack times to help children to develop independence through making choices, serving food and drink, and feeding themselves. Staff support children to make healthy choices and understand the need for healthy eating
- We provide foods from the diet of each of the children's cultural backgrounds, providing children with familiar foods and introducing them to new ones. Cultural differences in eating habits are respected
- Any child who shows signs of distress at being faced with a meal he/she does not like will have his/her food removed without any fuss. If a child does not finish his/her first course, he/she will still be given a helping of dessert
- Children not on special diets are encouraged to eat a small piece of everything

- Children who refuse to eat at the mealtime are offered food later in the day
- Children are given time to eat at their own pace and not rushed
- Quantities offered take account of the ages of the children being catered for in line with recommended portion sizes for babies and young children
- We promote positive attitudes to healthy eating through play opportunities and discussions
- The nursery provides parents with daily written records of feeding routines for all children
- No child is ever left alone when eating/drinking to minimise the risk of choking
- We will sometimes celebrate special occasions such as birthdays with the occasional treat of foods such as cake, sweets or biscuits. These will be given at mealtimes to prevent tooth decay and not spoil the child's appetite. Where we have frequent birthdays and celebrations we consider other alternatives such as celebrating through smiles and praise, stickers and badges, choosing a favourite story, becoming a special helper, playing a party game, dancing and/or singing their favourite song
- We do allow parents to bring in cakes on special occasions. We ensure that all food brought in from parents meets the above and health and safety requirements
- All staff who prepare and handle food are competent to do so and receive training in food hygiene which is updated every three years
- In the very unlikely event of any food poisoning affecting two or more children on the premises, whether or not this may arise from food offered at the nursery, we will inform Ofsted as soon as reasonably practical and in all cases within 14 days. We will also inform the relevant health agencies and follow any advice given.

64. Parents & Carers As Partners Policy

At Little Stepping Stones Day Nurseries we believe that parents and staff need to work together in a close partnership in order for children to receive the quality of care and early learning to meet their individual needs. We welcome parents as partners and support a two-way sharing of information that helps establish trust and understanding. We are committed to supporting parents in an open and sensitive manner to be an integral part of the care and early learning team within the nursery.

Our policy is to:

- Recognise and support parents as their child's first and most important educators and to welcome them into the life of the nursery
- Generate confidence and encourage parents to trust their own instincts and judgement regarding their own child
- Welcome all parents into the nursery at any time
- Welcome nursing mothers. The nursery will make available a private area whenever needed to offer space and privacy to nursing mothers
- Ensure nursery documentation and communications are provided in different formats to suit each parent's needs, e.g. Braille, multi-lingual, electronic communications
- Ensure that all parents are aware of the nursery's policies and procedures. A detailed parent prospectus will be provided and our full policy documents will be available to parents at all times in the nursery office
- Maintain regular contact with parents to help us to build a secure and beneficial working relationship for their children
- Support parents in their own continuing education and personal development including helping them to develop their parenting skills and inform them of relevant conferences, workshops and training
- Create opportunities for parents to talk to other adults in a secure and supportive environment through such activities as open days, parents' evenings and a parents' forum
- Inform parents about the range and type of activities and experiences provided for children, the daily routines of the setting, the types of food and drinks provided for children and events through regularly distributed newsletters and the nursery website
- Operate a key person system to enable parents to establish a close working relationship with a named practitioner and to support two-way information sharing about each child's individual needs both in nursery and at home. Parents are given the name of the key person of their child and their role when the child starts
- Inform parents on a regular basis about their child's progress and involve them in shared record keeping. Parents' evenings will be held at least twice a year. The nursery will consult with parents about the times of meetings to avoid excluding anyone
- Actively encourage parents to contribute to children's learning through sharing observations, interests and experiences from home. This may be verbally, sharing photographs or in written form
- Agree the best communication method with parents e.g. email, face-to-face, telephone and share information about the child's day, e.g. food eaten, activities, sleep times etc.

- Consider and discuss all suggestions from parents concerning the care and early learning of their child and nursery operation
- Provide opportunities and support for all parents to contribute their own skills, knowledge and interests to the activities of the nursery
- Inform all parents of the systems for registering queries, compliments, complaints or suggestions, and to check that these systems are understood by parents
- Make sure all parents have access to our written complaints procedure
- Share information about the Early Years Foundation Stage, young children's learning in the nursery, how parents can further support learning at home and where they can access further information
- Provide a written contract between the parent(s) and the nursery regarding conditions of acceptance and arrangements for payment
- Respect the family's religious and cultural backgrounds and beliefs and accommodate any special requirements wherever possible and practical to do so
- Inform parents how the nursery supports children with special educational needs and disabilities
- Find out the needs and expectations of parents. We will do this through regular feedback via questionnaires, suggestion system and encouraging parents to review working practices. We will evaluate any responses and use these to promote nursery practice, policy and staff development.

67. Late Collection & Non-Collection Policy

At Little Stepping Stones Day Nurseries we expect all parents to agree an approximate time to collect their child from the nursery. We give parents information about the procedures to follow if they expect to be late. These include:

- Agreeing a safety password with the nursery in advance to be used by anyone collecting a child who is not the parent (designated adult)
- Calling the nursery as soon as possible to advise of their situation
- Asking a designated adult to collect their child wherever possible
- Informing the nursery of this person's identity so the nursery can talk to the child if appropriate. This will help to reduce or eliminate any distress caused by this situation
- If the designated person is not known to the nursery staff, the parent must provide a detailed description of this person, including their date of birth where known. This designated person must know the individual child's safety password in order for the nursery to release the child into their care. This is the responsibility of the parent.

If a child has not been collected from the nursery after a reasonable amount of time (e.g. ½ hour) has been allowed for lateness, we initiate the following procedure:

- The nursery manager will be informed that a child has not been collected
- The manager will check for any information regarding changes to normal routines, parents' work patterns or general information. If there is no information recorded, the manager will try to contact the parents on the telephone numbers provided for their mobile, home or work. If this fails the manager will try the emergency contacts shown on the child's records
- The manager/staff member in charge and one other member of staff must stay behind with the child (if outside normal operating hours). During normal operating times, the nursery will plan to meet required staff ratios. If the parents have still not collected the child, the manager will telephone all contact numbers available every 10 minutes until contact is made. These calls will be logged on a full incident record
- In the event of no contact being made after one hour has lapsed, the person in charge will ring the local authority children's social services emergency duty team
- The nursery will inform Ofsted as soon as convenient
- The two members of staff will remain in the building until suitable arrangements have been made for the collection of the child
- The child's welfare and needs will be met at all times and to minimise distress staff will distract, comfort and reassure the child during the process
- In order to provide this additional care a late fee of £1 per minute will be charged to parents. This will pay for any additional operational costs that caring for a child outside their normal nursery hours may incur.

69. Arrivals & Departure Policy

At Little Stepping Stones Day Nurseries we give a warm welcome to every child and family on their arrival.

Parents are requested to pass the care of their child to a specific member of staff who will ensure his/her safety (this is usually a child's key person). The staff member receiving the child immediately records his/her arrival in the daily attendance register. The staff member also records any specific information provided by the parents, including the child's interests, experiences and observations from home.

If the parent requests the child is given medicine during the day the staff member must ensure that the medication procedure is followed.

If the child is to be collected someone who is not the parent at the end of the session, there is an agreed procedure that must be followed to identify the designated person. Photo identification and a password are also required where possible for the designated adult. Parents are informed about these arrangements and reminded about them regularly.

The child's key person or other nominated staff member must plan the departure of the child. This should include opportunities to discuss the child's day with the parent, e.g. meals, sleep time, activities, interests, progress and friendships. The parent should be told about any accidents or incidents and the appropriate records must be signed by the parent before departure. Where applicable, all medicines should be recovered from the medicine box/fridge after the parent has arrived and handed to him/her personally. The medication policy is to be followed regarding parental signature.

The nursery will not release a child to anyone other than the known parent unless an agreement has been made at the time of arrival. In the case of any emergency such as a parent being delayed and arranging for a designated adult to collect a child, the parent should inform the designated person of the agreed procedure and contact the nursery about the arrangements as soon as possible. If in any doubt the nursery will check the person's identity by ringing the child's parent or their emergency contact number (please refer to the "Late Collection Policy").

On departure, the staff member releasing the child must mark the child register immediately marked to show that the child has left the premises.

Adults Arriving Under The Influence Of Alcohol Or Drugs

Please refer to the "Alcohol & Substance Misuse Policy".

Arrivals And Departures Of Visitors

For arrivals and departures of visitors the nursery requires appropriate records to be completed on entry and exit e.g. in the visitors' book. Please refer to "Supervision Of Visitors Policy" for further information.
